## ALLIES MAKE BIG GAINS IN THE WEST

### SITE PICKED FOR LOCAL MUNICIPAL MARKET

Block Bounded by Harrison and Webster, 11th and 12th Streets to House Civic Plan Championed by Tribune

RESERVATION CALL ISSUED TO FARMER

City War Gardens, Ranches and Orchards of Alameda and Nearby Counties to Be Drawn On by Open-Air Exchange

The site for Oakland's first municipal market has been chosen. The block which lies between the Harrison and Webster, Eleventh and Twelfth streets, has been designated as the location for the city-directed institution to which war and war necessity has given a new impetus. The Realty Syndicate is contributing the property. So imminent is the opening of the market, which but follows the successful experiment tried in other cities, that the call is sent out today to farmers and home producers of foodstuffs to make reservations in the open air pavilion.

Those having foodstuffs to sell, whether they be from the garden, the orchard or the kitchen, may communicate with Merritt 1278 or East Twenty-first street or 1554 San Sebastian avenue.

Thus simply will the municipal market come into existence in Oakland in answer to a genuine need.

NEW ONE LOCAL. The idea of such an institution conducted by the city is not a new one. It has been felt for many years that a place where farmers and producers might meet with the consumers was a necessity and from time to time plans and means were discussed.

Within the past few months the plans have crystallized, lent impetus by public opinion and have emerged with the pledged inauguration of a city-controlled food exchange within the light of a few days. The large war gardens, with their incoming crops, will be a source of supply upon which the directors will be able to call. Mrs. James Hamilton, who has had direction of the work of Modesto supporters in the city of Oakland, has been the leader of the plan and was largely instrumental in bringing about its realization.

The commissioners of Oakland are in hearty accord with the project, undertaking which will be a distinct contribution to the conservation of food. Commissioner W. H. Edwards within the month offered to father an appropriation not to exceed \$25,000 in the new budget for the creation of a municipal market. The members of the Oakland Board of Market Directors appointed by Mayor Davis in March, 1917, to present a plan for a municipal free market have been studying the report and recommendations which they presented in the light of this offer and have endeavored to bring within the proposed appropriation their more ambitious estimate of from \$55,000 to \$60,000.

Mayor Davis in appointing the market board stated that no expenditure of public money could be made for a better purpose than that of establishing a public market where consumer and producer could get together for direct bargaining.

HAVE MADE GOOD THROUGHOUT STATE. Municipal markets throughout California have proved their own success wherever they have been established. Los Angeles has a string of busy markets on which housewives depend. The small town of Modesto supports an informal municipal market in its town square. Oakland in operating a buying and selling forum for the benefit of not only its own citizens but the people of the county, particularly those in the near-by rural district, has followed the precedent in other places.

The scheme has the support of improvement and civic clubs, women's organizations, church and patriotic societies and the University of California. A long list of these representative bodies have gone on record as publicly giving their endorsement to the establishment of the municipal free market.

Ralph Merritt in a communication

### General Wood Reassigned to Kansas Camp

(By Associated Press) WASHINGTON, June 17.—Revocation of orders assigning Major-General Leonard Wood to command the western department and reassignment of the general to Camp Funston, Kansas, was announced today by the War Department.

When General Wood recently was withdrawn from the division that he had trained at Camp Funston on the eve of its departure for France, he urged strongly that he be given more active duty than he would find as a departmental commander.

No explanation accompanied a brief announcement by the adjutant-general that the assignment had been changed. There have been intimations that the War Department contemplates giving General Wood some special assignment of great importance, and that he goes to Camp Funston only temporarily until the plan can be worked out.

### NAFTZGER TO BE APPOINTED TO R. R. BOARD

A. H. Nafziger, formerly vice-chairman of the State Council of Defense, is to be appointed to the vacancy on the State Railroad Commission, created by the resignation of Max Thelen, according to well authenticated information today.

It is rumored here that Governor W. D. Stephens will appoint Nafziger to the latter post this week, the appointment to be effective July 1, to finish the unexpired period of two years remaining on Thelen's four-year term. The position will pay \$3000 a year, as against the \$5000 Nafziger received as vice-chairman of the State Council of Defense.

The way for the appointment of Nafziger to the railroad commission was cleared by the acceptance yesterday of Nafziger's resignation, dated May 1 and the appointment of Charles C. Moore, former president of the P. P. I. E. as vice-chairman.

The following telegrams were exchanged between the governor and Nafziger today:

"LOS ANGELES, June 17.—A. H. Nafziger, State Council of Defense, San Francisco: Your resignation presented some time ago is accepted. You have rendered most valuable service to the state of California, and both personally and for the state I beg to express sincere appreciation. I have appointed C. C. Moore and am sure he will appreciate all courtesies."

"SAN FRANCISCO, June 17.—Governor William D. Stephens, Union League Building, Los Angeles: I thank you for your very kind and greatly appreciated telegram of this date. C. C. Moore, as my successor, will have my sincere support and assistance in any way he may direct."

"A. H. NAFZIGER." "I cannot discuss this matter in any shape or form," was the reply Nafziger made to the question asked him today as to his appointment to the railroad commissionership and if he had been advised privately by the governor that such appointment was to be made.

EDGERTON IS HEAD OF RAILROAD COMMISSION. Edwin O. Edgerton, 6 Prospect drive, Berkeley, was elected president of the railroad commission today to succeed Thelen, who resigned to take a position with the war department at Washington.

The election of Edgerton was determined by his fellow commissioners, H. D. Loveland, Alex. Gordon and Frank R. Devlin, almost immediately after Thelen's resignation, but official action was withheld a day or two out of courtesy to Governor Stephens, who has the appointment of Thelen's successor.

Edgerton has been a member of the railroad commission since 1912, and was appointed from Los Angeles where he was engaged in the practice of law and civic investigation. He is 42 years old.

President Edgerton made the following statement:

"The work of the railroad commission has increased rather than diminished because of the war emergency situation. Matters of vital importance to the public welfare urgently requiring immediate attention are being presented to the commission almost daily."

"The commission has just taken over the administration of electric power in the central and northern part of the state and it becomes necessary that sound judgment and vig-

### CONSUL FOR AMERICANS ENGLAND IN POUR INTO CZAR'S LAND ENDS LIFE HIGH RATE

Percy Bayliss, Until Three Months Ago An Official in Russia, Inhales Gas in His Apartments Across the Bay

FLED FROM SLAV LAND FOR SAFETY

Despondency Caused by Continued Ill-Health and Financial Condition Is Thought to Have Occasioned Rash Act

SAN FRANCISCO, June 17.—Percy Bayliss, 44, formerly acting consul general for Great Britain at Moscow, Russia, who fled from there three months ago during the Bolshevik uprising, committed suicide by gas at his home here, 1404 Webster street. He is survived by his wife, Olga, a beautiful Russian woman of 30, and three minor children, Eugene, 9; George, 7; Leonard, 6, all of whom were born in Russia and speak no English. They are in destitute circumstances and it is thought have been supplied with funds during the recent illness of Bayliss by A. Carnegie Ross, British consul-general here.

According to the story told by Mrs. Bayliss through an interpreter, the family left Russia in March and came to San Francisco, Bayliss being taken to the Marine Hospital, from which he was discharged three weeks ago. He had been despondent over ill health and his financial condition and at 4:30 this morning he went to the room occupied by the two boys, awakened them and told them to go to their mother. He then closed the door and turned on the gas. The body was found by Mrs. Bayliss at 7 this morning.

Early today Bayliss went into the bedroom occupied by his two sons and told the boys to go in with their mother, Mrs. Olga Bayliss, and their sister, Eugene, 9, in an adjoining room.

An hour later Mrs. Bayliss went into the boys' bedroom and found her husband dead. The gas had been turned on and the windows closed tight.

Four months ago the Bayliss family fled from Moscow when the consulate was ordered closed. Wandering mobs robbed them and they were practically penniless when they reached San Francisco.

At hour later Mrs. Bayliss went into the boys' bedroom and found her husband dead. The gas had been turned on and the windows closed tight.

### Italian Troops and Their Allies Defeat Foes in Furious New Offensive

WITH THE ITALIAN ARMY, June 17.—Austrian troops which forced the Piave river have been driven back. The fighting along the river is most intense.

ROME, June 17.—The Italian troops and their allies are holding the enemy strongly, tenaciously resisting him in the new offensive and making repeated counter-attacks, said Premier Orlando in a statement tonight in the chamber of deputies.

"During the day the enemy, by a strong reaction, hindered the counter offensive pressure of our troops and those of our allies on the Asiago plateau and in the Montegrappa region," said the Premier. "The Austrians also attacked violently all along the Piave in order to establish solid bridgeheads on the right bank of the river."

"Our troops, by tenacious resistance and repeated counter-attacks, are strongly holding the enemy. The struggle is most bitter on the eastern slopes of Montello and to the west of San Dona di Piave."

ROME, June 17.—Austrian forces have renewed their attack against Italian, French and British in the Asiago and Grappa regions, the Italian war office declared in a special statement issued last night. The fiercest fighting is under way at various points along the Piave river.

"In the Asiago and Grappa regions, the enemy re-attacked violently," the statement said. (Mount Grappa is about seven miles west of the Piave. French troops are believed to be fighting there. The Asiago plateau is directly west of Mount Grappa and is being defended by British and Italian troops.)

"Along the Piave the enemy is attempting to establish a bridgehead. We are tenaciously resisting and holding the enemy."

"East of Montello and west of San Dona di Piave (on the east bank of the Piave, ten miles from the sea) there is the fiercest fighting."

WITH THE ITALIAN ARMIES IN THE FIELD, June 17.—"The situation is highly satisfactory," declared an officer in the British secret, now under assault by the Austrians today. Documents found on the prisoners showed the Austrian objectives included the hills three miles behind the British front.

OVERCOME HANDICAP OF RAIN AND MIST. Despite the fact that the Austrians began their offensive after four days of rain and mist, which rendered aerial observation almost impossible, the Italians learned that enemy attack had been ordered to start firing at 3 a. m. Saturday a terrific Italian barrage was started at midnight. It was maintained for twenty minutes and appeared greatly to disorganize the enemy's concentrations. The Austrians followed the Germans' tactics of rushing up men in the last hours before the attack. Great concentrations of Austrian cannon were made along the front. One Italian army in the Treviso area, which had had 1500 were concentrated between the Asiago and the Brenta, a ten-mile line.

THIRTY-FOUR AIRPLANES ARE BROUGHT DOWN. Pending details from all points it is difficult to gauge the results of the attack, but it is clear the Austrians were less successful than they expected from such an effort. Allied airmen have brought down 34 airplanes and three balloons since the drive started.

PARIS, June 17.—Fifty Austrian divisions (500,000 men) were thrown into the attack on the Italian front, the Petit Parisien declared today. The Germans were not surprised, however, the newspaper said.

ROME, June 17.—Vittorio Orlando, the Italian premier, in an interview said the Italian front has begun resisting the Austro-Hungarian troops in their new offensive in Northern Italy and by repeated counter-attacks, were strongly holding the enemy. The struggle, he added, was most bitter on the eastern slopes of Montello and to the west of San Dona di Piave.

The situation on the Italian front in its entirety seems very reassuring, says a semi-official note issued last night. It is added that the great battle which broke out Saturday has begun. Although having a strength of sixty divisions the enemy attacking forces have not succeeded in passing the Italian advanced area at any point. Austrian pressure continues very strong along the entire front. The enemy is concentrating most powerful and fierce attacks astride the Brenta and across the Piave and it is still possible for the fighting line to flow backward or forward.

PIAVE LINE STRUGGLE IS MOST SEVERE. The enemy based his enterprise on various factors to assure him a victory says the semi-official notes. There was a relatively brief, but extremely violent, artillery preparation, with a large number of gas shells. This bombardment was for the purpose of destroying the Italian front line and paralyzing the Italian artillery. Then, under cover of an artificial fog from bombs and smoke apparatus, the enemy in the enemy placed such faith in this preparation that he fixed his objectives for the first day's fighting more than fifteen kilometers in advance and planned to descend from the mountain area.

### HUN RAIDS REPULSED BY FORCES UNDER FOCH

French Troops Improve Their Positions Between the Oise and Aisne; German Attacks Fail in the Caveres Wood

TEUTON PRISONERS TAKEN BY ALLIES

British Commander Reports Defeat of Teutons East of Arras; Beat Enemy Raid in Neighborhood of Givenchy

BULLETS. LONDON, June 17.—A hostile airplane crossed the Kent coast at noon today, but turned back over the sea after being bombarded by anti-aircraft guns, it was officially announced.

PARIS, June 17.—The French troops improved their positions north and northwest of Hautebraye, between the Oise and the Aisne in a local operation early today. One hundred prisoners and some machine guns were captured, says the official statement issued today.

German attacks were repulsed in the Caveres wood and in the Vosges. The statement reads: "Between the Oise and the Aisne, the French succeeded in carrying out early today a local operation which resulted in improvement of the French positions north and northwest of Hautebraye. The French took 100 prisoners and captured several machine-guns. In the Caveres wood and in the Vosges our troops repulsed enemy surprise attacks. There is nothing to report from the rest of the front."

BRITISH CARRY OUT SUCCESSFUL RAID. LONDON, June 17.—A successful raid was carried out last night east of Arras by the British, who took a few prisoners. It is announced officially.

Raiding operations and a brief enemy bombardment in the Albert region were reported by Field Marshal Haig today.

"East of Arras we made a successful raid and took a few prisoners," the statement said.

"An attempted enemy raid in the neighborhood of Givenchy was repulsed yesterday morning. The enemy bombarded us north-west of Albert for a short period last night."

By GORDON KNOX, International News Service Staff Correspondent

WITH THE FRENCH ARMY, June 17.—Tanks paved the way for a French victory in the Mery-Belloy sector of the Montdidier-Oise front. The story of how these traveling land forts dashed German positions as they rolled forward was told when I visited tank headquarters after the fighting.

In the Mery zone tanks advanced ahead of the infantry, firing a frontal barrage, while artillery concentrated upon the flank positions. As the monsters advanced in close formation through Mery and beyond, the deadly havoc wrought by the guns could be seen. Fleets of dead could be seen everywhere, wiping out nests of machine guns powerful enough to stop any infantry attack.

GUNS MOVED DOWN RUNNING TO COVER. An officer thus described the fighting:

"As the German positions were unmasked we silenced their batteries with our heavier guns and moved down the runners as they ran to cover. The enemy was gritty, but we were too much for them. Our infantry was then able to advance the next day. The ground was especially defended. The mere appearance of a tank battery was enough to make the enemy evacuate his positions. The stories of the operations reveal that veritable fleets were in use."

Tanks moving in the direction of St. Maur advanced to a point 400 yards from the village while the infantry consolidated behind them. It was a heroic walkover for the tanks.

### W. C. Potter Named to Aircraft Board

WASHINGTON, June 17.—William C. Potter of New York was nominated today by President Wilson to be a member of the aircraft board.

# ITALY HOLDS MASS ATTACK OF AUSTRIANS

(Continued From Page 1)

and also attack the city of Treviso from the Piave river. Nowhere else along the front of attack has the struggle been so severe as on the Piave line.

One of the most brilliant of the Italian actions was the defense of the Monte Grappa position. Here the Austrians suffered heavy losses, many of their machine guns were captured. The prisoners are ragged and ill-fed. Many of them are underaged youths. One of them remarked to the correspondent that he had no interest in the war.

The feeling of the Italians is buoyant. At Italian army headquarters satisfaction is felt over the situation on every part of the front.

The general commanding the artillery corps in the Monte Grappa region expressed this feeling to the correspondent.

**ITALIAN GENERAL ASKS FOR MILICIAS**

"Now send us only four divisions of Americans," the general added. "We will first shake hands and then travel together into Austria."

The severity of the fighting on Monte Grappa may be understood from the fact that the Italian artillery fired 70,000 shells in two weeks.

North of Cerna an advance group of British, which had been passed and surrounded by the Austrians, resisted until a counter-attack freed them and at the same time captured 200 prisoners. Southwest of Neumar, the French recaptured a strong point and took 155 prisoners. From Mioschin to Monte Fenera the Fourth Army completely regained its advanced positions on Asolo, Peretta, Solara and Perle di Salto, where the enemy had made slight progress. A storming detachment retook Col Mieschin, with 250 prisoners, in ten minutes. The prisoners included twenty-five officers. At the same time the enemy passed the river between Canelu and Zenson Loop. The enemy was immediately checked and driven back by a counter attack to the bank of the river. One thousand five hundred and forty-five prisoners, including one colonel, two majors and forty-two officers, were made prisoners by the Third army.

Altogether 3000 prisoners, including 89 officers, were taken by the Italians and their allies in the first day of the struggle, which was to have been a grand success for the Austrians, but which resulted in a dismal failure.

**BATTLE TO ASSUME GIANT PROPORTIONS**

A dispatch from Rome dated 11 55 o'clock last night, says the battle on the Italian front will assume giant proportions, the Austrians attempting to break down the Italian defense by a great pincer movement. It adds that the battle will last several days before a decision is reached.

The central Powers recently offered Italy an "honorable peace," which was refused. Premier Orlando informed the Italian Chamber of Deputies, according to an official dispatch from Rome. At the same time he gave detailed information of the solidarity of Italy with the oppressed nationalities of Austria.

# Kaiser Boasts; Hunger Answers Wilhelm Changes Tone in Note GERMANS TAKE NEW DRUG TO STILL HUNGER

PARIS, June 17.—Four thousand Austro-German troops are suppressing disorders in the Italian district, according to official advices received here today. Food rioting in Vienna, Budapest and Prague is said to be particularly serious in the latter city.

**BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.**

LONDON, June 17.—The food situation in Germany is becoming more critical. Rations of the most indispensable articles of food are reduced or are no longer procurable, and people are again beginning to ask when will there be sufficient food to feed the population of the large towns during the three critical months ahead.

As to the situation in the immediate future, everything indicates that the period until the fruits of the new harvest become available is likely to be one of grave anxiety and distress for the German people. Only one necessity could have compelled the government to reduce the ration from seven to five and a half ounces, and although the Germans expected great relief from the Ukraine they cannot hope to derive much assistance from that quarter.

In this connection the Chemnitz Volks Stimme says:

"Kindly spare us Ukraine promises. We have been fooled too often with empty words. Tell the people the plain truth."

The Berlin Vorwaerts declares that the physical and moral powers of the population to endure privations have been substantially diminished through another year of war and that any further reduction of the rations must constitute "a serious danger."

Meat is scarce and even now it is impossible to provide the large towns with their proper quota of meat. The whole cattle-breeding industry of Germany is threatened and with it the supplies of meat, milk and fat. In April there was a further reduction in the milk supply in certain large towns, including Berlin. The inhabitants of Breslau lately have received only one ounce a week of butter and margarine together. In order to make up for the shortage of food still more substitutes have been manufactured.

One German newspaper recently published an advertisement of a special drug "for stilling hunger and enabling people to hold out until the next meal."

In regard to the effect that the shortage of food is having on the health of the nation, great decreases in the German birth rate is a matter of interest. A report compiled by the local government board of infant welfare in Germany showed that in 1916 40 per cent fewer babies were born than in 1913, and from 1915 to 1917 the total decrease was equivalent to 10,000,000.

The premier stated the Czech-Slovak battalions are already fighting with Italian soldiers at the front, and that the Rumanian Jugo-Slavs are beginning to be allowed to join Italy against the common enemy.

**ON THE ITALIAN FRONT, June 17.**—The British fighting with the Italians in the southwestern theater of war have captured 700 Austro-German prisoners and four cannon.

The losses inflicted by the British since the Austrian offensive began Saturday morning have been six times as heavy as they sustained themselves.

British airmen have bombed and destroyed seven bridges spanning the Piave river.

# PRUSSIANISM WILL CONQUER, SAYS KAISER

**BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.**

AMSTERDAM, June 17.—Prussian militarism will bring victory to Germany, says Emperor William in reply to a telegram of congratulations on the thirtieth anniversary of the accession from Chancellor von Hertling. The emperor declares that he leads "the most capable people on earth," and expresses the hope that the German people will have strength to bear their sufferings and privations. The telegram reads:

"I express cordial thanks and kind good wishes to your excellency and the state ministry on the day on which, thirty years ago, I ascended the throne. When I celebrated my twenty-five-year jubilee as ruler I was able with special gratitude to point out that I had been able to do my work."

"Since then the world picture has changed. For nearly four years forced to it by our enemies, we have been engaged in the hardest struggle history records. God the Lord has laid a heavy burden upon my shoulders, but I carry it in the consciousness of our good right, with confidence in our ships, our sword and our strength and in the realization that I have the good fortune to stand at the head of the most capable people on earth. Just as our arms under strong leadership have proved themselves invincible, so also will the home land, exerting all its strength, bear with strong will the sufferings and privations which just now are heavily felt."

"Thus I have spent my day amidst my armies and it moved me to the depths of my heart, yet filled with the most profound gratitude to God's mercy."

"I know the Prussian militarism, so much abused by our enemies, which my forefathers and I in a spirit of dutifulness, loyalty, order and obedience, have nurtured, has given Germany's sword and the German nation strength to triumph and that victory will bring a peace which will guarantee the German life."

"It will then be my sacred duty, as well as that of the states, with all our power, to see to the healing of the wounds caused by the war and to secure a happy future for the nation. In most faithful recognition of the work hitherto performed I rely on your approved strength and the help of the state ministry. God bless our land and people."

**AMSTERDAM, June 17.**—Emperor William has congratulated the Crown Prince on his thirtieth birthday with his troops, according to an official dispatch.

"Under your leadership," the emperor telegraphed, "the armies of General von Boehm, General von Below and General von Hutier have severely beaten the enemy and shattered the storm of hurriedly brought up army reserves. Eighty-five thousand prisoners and more than one thousand guns are the outward signs of this tremendous battle success. To you and the participating commanders and troops I express my thanks and those of the Fatherland."

"The fighting spirit and fighting strength of my incomparable troops guarantee our final victory. God will further help."

# NAFTZGER JOINS R. R. COMMISSION

(Continued From Page 1)

fluence be exercised in order that the consumers as well as the company, be protected in this essential service. This class of work apparently will be more and more left upon the commission.

"While official regulation of railroads has been largely removed from the railroad commission by reason of the federal government taking over the railroads, the commission is advised that in all probability it will be called upon in an advisory capacity to pass upon many, if not all, of the railroad problems that have heretofore been handled in this event there will be no interference in the time and effort to be spent by the commission and its employees in railroad matters."

"All of the other utilities of the state remain under the jurisdiction of the commission, and because of the emergency condition the work and effort required to adequately and justly solve the many problems presented has been largely increased."

# Allied Aviators Fly Over Austrian Ports

GENEVA, June 17.—Allied aviators at the end of last week performed two long-distance flying feats on which they averaged 350 miles in an average of four hours' elapsed time, according to a telegram from Milan to the Chronique Italienne of Geneva. From a base south of Idice, Italy, a party of aviators went over Austrian Adriatic ports as far as Zara, in Dalmatia, and returned.

The second party went over the Tyrol Alps to Innsbruck and then to Friedrichshafen, where photographs were taken, showing that new airplane factories are being constructed there. The aviators did not drop bombs.

# The New Education

An announcement of a course of lectures on the above subject by Will Leighton Comfort, the author of Mid-Stream, Child and Country etc. Tuesday, Thursday and Friday afternoon, beginning June 18, at 3 30 o'clock. The course \$4.00, single lectures 75 cents.

Children's Cough and Colds. For children's cough and colds, Chamberlain's Cough Remedy is excellent. It is prompt and effective and contains no opium or other narcotic and is pleasant to take. For good Bros' drug stores.—Advertisement.

# AUSTRIANS MAKE DRIVE FOR VENICE

MILAN, June 17.—"The Austrian effort is the greatest since the beginning of the war," the Corriere della Sera declared today.

"Its principal aim is to break through the Brenta valley by overwhelming the Italian defenses in the narrow Frenzeli valley, enabling the enemy to debouch into Valstagna."

It is a resumption of the offensive of 1916 for conquest of the Venezia plain (western Venice). This sector is under the same Austrian commander, General Conrad, with more men and material than before.

"New enemy divisions which reached the Trentino from the eastern front have been distributed between the Mount Grappa, Asiago plateau and La Garina valley sectors."

The Eleventh Austrian army, under General Schonchensnel, occupied the lines from the Astigo to the Piave.

Along the Piave the great volume of enemy force seems to indicate an intention to force a crossing, probably in the region of Montello and the middle Piave. The Austrians comprise the army group of General Kerobach, which includes the armies of Generals Wurm and Enriquez."

**WASHINGTON, June 17.**—American troops aid for Italy will be forthcoming soon.

With the Austrian offensive under way, this fact developed today. In line with the pledges of President Wilson and Secretary Baker, United States forces will take their places along with the Italian and other allies. They will not be vast in numbers, their purpose being to show Italy, concretely, that the United States is backing her.

# U. S. TO BUILD NEW TYPE OF DIVER FIGHTER

WASHINGTON, June 17.—Submarine patrol vessels resembling a cross between a Ford eagle boat and a destroyer, will be built to meet the now being urged in the Navy Department materialize. Assistant Secretary of the Navy Roosevelt is a proponent of this new type of craft.

The single destroyer-like vessel will be 250 feet long, with thin plates and high speed. The tonnage and engine power are withheld lest they give an indication of the size and power of the eagle boat.

**WASHINGTON, June 17.**—The Norwegian sailing ship Kinga has been sunk by a German submarine ninety miles off the Virginia coast. The Navy Department announced last night that the crew has been picked up by an American warship and is being brought to an Atlantic port.

**WASHINGTON, June 17.**—The Norwegian bark Samoa, from Buenos Aires was sunk by shell fire from a German submarine at 8 o'clock Friday morning about ninety miles off the Virginia coast. The Navy Department has announced that fifteen members of the crew were picked up by a schooner and transferred to another vessel which is bringing them to port.

The Samoa, a vessel of 1051 tons, was sent down near the spot where the British armed steamer Keemun was unsuccessfully attacked Thursday evening. The Norwegian vessel was the nineteenth craft known officially to have been sunk by the raiders since they began operations off the Atlantic coast some three weeks ago.

The tactics adopted by the submarine commanders in avoiding armed craft lead officials to believe that Germany is counting only on a threat to effect on American morale and not upon any military benefit to be derived from the damage done.

**ELIDES DIVER.**

**AN ATLANTIC PORT, June 17.**—In a three hour chase off the Virginia coast, a steamship from South American ports out-raced a German submarine early Friday morning, according to officers and passengers of the vessel, which have docked here.

A light, close to the water, was sighted near where the Norwegian bark Samoa was sunk six hours later. The ship turned about, and with her engines driving at full speed, headed toward mid-ocean, while the low-lying light followed.

The liner's captain, confident that the pursuing craft was a U-boat, ordered all passengers on deck and equipped them with life belts. The boats were swung overboard and the women and children grouped near them.

# U. S. PRISONER TURNS TABLES ON HUN CAPTOR

**BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.**

WITH THE AMERICAN ARMY IN FRANCE, June 17.—The Germans captured an American soldier in their attack on Evilly today, but he did not remain a prisoner long.

At the edge of the village three Germans came upon a wounded American. He was placed under guard of a German private and started for the enemy lines.

Reaching a point near the enemy wire entanglements, the American suddenly drew a revolver and forced his surprised custodian to march back across No Man's Land into the American lines.

After turning his prisoner over to fellow soldiers, the wounded man fell unconscious from loss of blood.

# WORKS FOR FIRST TIME IN TWO YEARS

Says Tanlac Gave Him Biggest Surprise of His Life; Gains Twenty Pounds.

"Well, I have just finished my third bottle of Tanlac, and do you know I had the surprise of my life the other day when I got on the scales and found I had actually gained twenty pounds already," said W. S. Tanlac, a well-known carpenter, living at 208 Park avenue, Tacoma, Wash., recently.

Tanlac, who has been unable to hit a lick of work in two years until now, he continued, "My appetite went square back on me, and what little I did manage to eat soured on my stomach, causing gas and intense suffering. My kidneys bothered me something awful and my back pained me so bad I was unable for me to have it rubbed. I was so nervous and miserable during those two years that I never knew what a good night's sleep was, and for seven months of that time I was flat on my back, hardly able to move. I, of course, was under treatment, spending some time in the hospital, and took all kinds of medicine, but with it all I kept getting worse."

"I kept dropping off in weight until I lost forty-seven pounds, and was almost a living skeleton. When I left the hospital and decided to see what Tanlac could do for me, I weighed myself, and found I had gained twenty-five pounds. But Tanlac certainly has made a wonderful change in me. I sleep fine, and really it's the first time in two years I have been able to sleep the night through. My back and kidneys don't bother me any more and my stomach is in such a good condition that I can eat just anything I want without suffering a particle afterwards. The way I am getting back my lost weight is astonishing. As said, I have already gained twenty pounds and I am still gaining. Not only that, I feel better than I have in years, and I am going back to my work as I feel strong and well in every way, and I just can't praise Tanlac enough for what it has done for me."

Genuine Tanlac, made according to the latest improved formula, and bearing the name of G. F. Williams, international distributor, is sold in San Francisco and Oakland by The Owl Drug Stores exclusively.—Advertisement.

# OAKLAND MAN GIVES LIFE FOR COUNTRY

One more Oakland man has given his life and another has been severely wounded in France, according to the latest casualty lists to be sent out by the War Department. One of them, Francisco Luchessi, died of wounds previously reported, and James L. McKay is listed as severely wounded.

Luchessi was conducting a fruit and vegetable stand in the Oakland Free Market until he entered the army. He lived with his brother George at 2524 Market street. He had been employed as an accountant with the San Francisco New York Life Insurance Company. He was 24 years old and was born in Italy, where another brother is in the Italian army.

# Roll of Honor

WASHINGTON, June 17.—The name of Edgar Lawrence Pattee, San Mateo, California, appeared among the thirty-nine casualties in the American expeditionary forces announced by the War Department today. They are divided as follows:

Six killed in action, two died of wounds, one died from an airplane accident, four from disease, twenty-four others wounded severely, one wounded, degree undetermined, and one is named as missing in action.

Officers mentioned in the list follow:

**DIED IN AIRPLANE ACCIDENT.**  
Capt. Harry S. Gwynne, Tulsa, Okla.

**SEVERELY WOUNDED.**  
Capt. Albert S. Tucker, Laredo, Tex.

Lieut. Wm. J. Gahner, Mr. Vernon, Missouri.

Lieut. Samuel J. Gilmore, Brooklyn, N. Y.

**WOUNDED (Degree Undetermined).**  
Lieut. Hugh Smith Thompson, Chattanooga, Tenn.

The other casualties follow:

**KILLED IN ACTION.**  
Private Charles F. W. Albrecht, Brooklyn, N. Y.

Private Wm. H. Goodwin, Clovis, N. M.

Private Dan T. Graves, Ellenville, Miss.

Private Claude H. Meyer, Brown, Miss.

Private Pietro Natale, Lincea, Montenegro.

Private Henry J. Robertson, Lockport, La.

**DIED OF WOUNDS.**  
Private Alexander Oikosky, Canoe Run, Pa.

Private John M. Peterson, Rutland, N. D.

**DIED OF DISEASE.**  
Private George Jones, Norwood, La.

Private Bonifuss Miller, Erie, Pa.

Private Lawrence Pattee, San Mateo, Calif.

Private Paul A. Wincholt, Laporte, Ind.

**SEVERELY WOUNDED.**  
Sergeants Chas. H. Buck, Jamestown, N. Y.; Arthur Simmons, Canton, Okla.; Corporal Alexander Sabo, Railway, N. J.; Privates Joseph J. Balenger, Lowell, Mass.; Barney C. Beckwith, Parkersburg, W. Va.; Dewey Brewer, Indianapolis, Ind.; James Donaldson, Washington, D. C.; Jodi M. Ferguson, Thompson, Tex.; Ralph M. Fox, Hershey, Pa.; Merdillo Garcia, Meadowbrook, W. Va.; Neil W. Gibson, Holly, N. Y.; Gustav G. Gunderson, Maddock, N. D.; Levi B. Johnson, Ayr, N. D.; Fred R.

## HUNS DENY ILL TREATMENT OF U. S. PRISONERS

AMSTERDAM, June 17.—The semi-official Wolff Bureau of Berlin finds it necessary to telegraph to Amsterdam a lengthy denial of what it describes as wicked charges of ill-treatment of American prisoners contained in American newspapers. The telegram says the American government has been informed by the Spanish legation, whose representatives are given free access to prisoners' camps, that the Americans are being treated humanely and strictly in accordance with the Geneva convention.

The prisoners' quarters, it is said, are healthy and the hospital accommodations excellent, while there is no lack of adequate food "on a scale corresponding to the present conditions in Germany."

## FOE ACCOMPLISHES LITTLE IN FIRST DAYS OF DRIVE

By Associated Press.

LEAD UP WENT TO THE FRONT.

Although the situation along the great chessboard-like battle line in Northern Italy remains still obscure, it seems that the Austrians have accomplished little at the inception of their drive against the Italian and allied armies. From the lower Piave river and northward along that stream encouraging reports tell of the enemy being checked and at some points being hurled back across the stream.

From the front, however, where the Austrians advanced through mountain ravines in their attempts to break through the allied lines, the situation seems to be well in hand.

It now appears that the Austrians made three successful attempts to cross the Piave. One was south of Montello, where the battle line leaves the Piave river and mounts to the westward into the Alps. One was between the front and the Piave, where the Austrians effected a crossing last November and held a bridgehead for some time. The other was at St. Dona Di Piave, about 11 miles from the mouth of the river. At least some of these forces have been driven back across the river, while the others have not been able to develop any advantage from their early success.

Italian, French and British troops have met the shock of the Austrian offensive along a 100-mile front.

The full force of the Austrian blow in the mountain region drove the defenders of the Venetian plains back on their third line, but there the Italians held and by successive counterattacks have recaptured important positions on the Asiago plateau and near recaptured mountain heights along the way with the intention of disgorging his main plan of breaking through the Alps and forcing the Italians to retreat in the Ban Sissa and Carso regions. Now the enemy's intent apparently is intended to conceal the development of a plan long cherished by Field Marshal Conrad Von Hertendorff to break through from the high Asiago plateau to the Venetian plain, thus obliging the Italian army along the Piave to retire in order to avoid being caught by an outflanking movement from the Piave river.

The enemy's bombardment was frustrated by the formidable fire from the Italian artillery, which destroyed lines and shelters and made full hits on massed troops as well as drenched his battle employment with gas.

When the enemy infantry advanced into the front line zones they found that resistance had been prepared for by the Italian machine guns and had to meet a counter-attack from the Italian supporting troops. This resulted in the loss of a great part of the advantage he had gained and he left prisoners and machine guns in the hands of the Italians.

# VENEZUELA PORT OF HUN SUBMARINES?

AN ATLANTIC PORT, June 17.—

Intimation that enemy submarines are lurking in the coastal waters of Venezuela and confirmation of reports that the Venezuelan Government had adopted a pro-German attitude was given here by Dr. Carlos Lopez Dussmann, editor of El Fonographo, formerly published in Caracas. Dr. Dussmann asserted that the government of Venezuela at the instigation of pro-German interests, is suppressing pro-ally newspapers and throwing their editors into jail. His own paper was suppressed and he served eight months in prison.

"German money is being spent freely in Venezuela," Dr. Dussmann said. "The government is pro-German and does not attempt to conceal the fact. The people, however, are for the allies and resent the stand the government has taken."

"I have documents which I will present to the proper government officials at Washington which will show many German intrigues against this country."

"I will not deny that there are German U-boat bases in Venezuelan waters."

The editor asserted that when he had refused to sell his paper, it was suppressed and he was thrown into prison and chained, hand and foot. His cell mate, receiving food intended for him, died of poisoning, he said. Aided by friends he escaped and was smuggled on board a steamship on which he came to this port.

He said that the government was pro-German and does not attempt to conceal the fact. The people, however, are for the allies and resent the stand the government has taken.

# OF STATE IN SESSION HERE

## TO AUCTION STEER FOR RED CROSS

Fuel problems, the gravest obstacle in the path of the laundrymen of California today, the problem of substituting women drivers for men if war's demands on man power create further shortages in laundry drivers, and expenditures by which the laundrymen have in spite of the high cost of doing business, to keep the cost of laundry to the public down to the present level, were the principal matters on which the California Laundrymen's Association stated its position today in the Hotel Oakland, with several hundred delegates from all parts of the state in attendance.

The session opened with the official welcome on behalf of the city by Commissioner Fred Morse, speaking for Mayor Davis, who was unable to attend the session. County Assessor Joseph M. Kelley, a member of the association, responded. Minutes and reports of committees and of President John P. Flanagan of San Francisco followed, and Paul Clagstone, secretary of the Chamber of Commerce of the United States spoke on the war work of the chamber.

**AFTERNOON SESSION.**  
The afternoon session saw the start of scientific work in management of the laundry business. The war was discussed by Miner Chipman of the Council of Management of the San Francisco Chamber of Commerce. Oliver L. Bear of the Department of Labor, and other business men taken up. Labor problems and the war were discussed by Miner Chipman of the Council of Management of the San Francisco Chamber of Commerce.

Tomorrow will see discussion of piece work in laundries, on credit and on business methods. Tomorrow's session will see the most important items of the convention when the fuel oil situation will be gone into. This is the gravest problem now affecting the laundrymen, according to officers of the association, and the Fuel Administration will have a representative present to go into the details. Reports of officers and elections will close the business portion of the convention.

This afternoon the women of the party were guests at the West Brothers Soda Factory, and afterward at an informal reception at the Hotel Oakland. Tomorrow they will be guests at the Hotel Claremont at a luncheon and also on an automobile ride and in the evening at a theater party at Ye Liberty.

Wednesday will be entirely devoted to an outing in the hills about Oakland, followed by the annual banquet in the evening.

John P. Flanagan is presiding at the sessions. The other officers are: Fred E. Whyte, Pomona, first vice-president; E. P. Collins, San Francisco, second vice president; W. H. Collins, San Francisco, secretary; J. H. Ensign, Fresno, treasurer; Nelson Snyder, San Diego, sergeant-at-arms, and T. J. Brownrigg, San Diego, past president.

**Giblin Heirs Seek Revision of Will**  
Judge Joseph S. Koford was appealed today by the heirs of Margaret Giblin, who died in Oakland in April, 1917, for a revision of her will, which it is claimed left more than the legal one-third of the \$200,000 estate to charity.

By the terms of the will, \$105,000 of the estate was distributed among relatives, a special bequest of \$15,000 made for the benefit of a sister, Mrs. Eleanor Tucker, the amount to be in trust and the beneficiary to receive the interest. The balance of the money was left to the Little Sisters of the Poor. According to calculations of the heirs, the amount which would be left to charity in excess of the lawful one-third which can be bequeathed by an estate to charity, and the heirs are asking the court to order the bequest and distribution to the heirs at law.

**J. J. Jerome Wants Name All to Himself**  
Objection was raised in court today to the application of Attorney J. J. Jerome for permission to change his name to J. J. Jerome. The objection was made by J. J. Jerome himself, who does not want his name duplicated in his own home town.

The objector is a shipworker and he declared that he would not consent to his interests for the attorney to be permitted to assume his name.

**Rupture Kills 7,000 Annually**  
Seven thousand persons each year are laid away—the fatal certificate being marked "rupture." The problem of the rupture is a problem of the most serious kind, and one which is not generally understood. It is a disease which is not generally understood. It is a disease which is not generally understood.

# OAKLAND HAS FIRST WOMAN P. O. INSPECTOR

To Oakland falls the distinction of being the home of the first woman postoffice inspector on the Pacific coast, and Chief Postal Inspector S. H. A. Morse believes, the first anywhere in the world. She is Miss Lillian Bernstein, 3022 Boecher street and she is 29 years old.

Miss Bernstein passed very high in the civil service examination recently, and being in need of an additional inspector, Morse selected her. She went to work today. There are many lines along which her duty will direct her, but the most exciting phase of the work is that of ferreting out criminals who use the mails to defraud.

# TO AUCTION STEER FOR RED CROSS

If a Belgian goose in Wisconsin can raise \$25,000 for the relief of Belgian children in a few weeks, how much will the finest specimen of a short-horn thoroughbred Durham steer in all the West secure for the Oakland Chapter of the American Red Cross?

This is the question that will be determined at the big Butchers' fair celebration at a local park next Thursday, when the Oakland Chapter of the American Red Cross will auction the prize-winning steer from the university farm at Pullman, Wash.

The animal was purchased by the San Francisco Retail Butchers' Association through the personal offices of P. L. Washburn, president of the Western Meat Company. The steer weighs 1000 pounds and is the most perfect specimen in the West. The butchers have donated the animal to the local chapter of the American Red Cross. The animal is as gentle as a kitten. It is valued at \$1500.

**Judge Flashes Long Record On Herman**  
Herman Stein appeared before Judge Mortimer Smith this morning with a pitiful plea for leniency following his arrest on a charge of petty larceny.

"Your Honor, I have never been in trouble before this and I am sorry. Can't you let me off light?" pleaded the prisoner from the cage.

Judge Smith picked up a paper lying before him and started to read. "Herman Stein, sentenced to eight years and violation of the State Prison Act, on February 4, 1917, and sentenced to six months in jail by Judge Samuel."

"Herman Stein, arrested for vagrancy in the county jail for selling liquor to soldiers, on August 27, 1917. The defendant, without a word, sank back into his seat, as Judge Smith handed him out a six-months sentence."

# Propose to Curtail Water System Plans

Realizing that the cost of extending the high pressure salt water system as proposed originally to be done this year would be \$400,000, the matter was referred to Commissioner F. E. Jackson today recommended to the city council that only two of the units of extension be carried out. The approximate cost is \$80,000, whereas the original estimate for an expense of \$400,000. The matter was referred to Commissioner Soderberg out of whose department funds the work would have to be done.

On recommendation of Commissioner Jackson, the matter was referred to the city council today. The proposed high pressure lines would connect the Point Point area and the street over Oak street and Market street.

**Bunker Hill Day Is Observed Ahead**  
Today is Bunker Hill day. One hundred and forty-three years ago that historic contest was fought, but there is nothing in the way of a public celebration of the occasion to be held in Oakland. In celebrating Flag day last Friday nearly all of the organizations which celebrated Flag day made reference to the coming of Bunker Hill day, and the two were linked in suchaway as to be observed jointly.

# GAMBLING CAUSE OF LICENSE LOSS

Admission on the part of Silvia Paganini, manager of a saloon at 1045 Seventh street, that he had permitted gambling with cards on the premises, and because he was warned for a similar offense on March 28, induced the city council, upon motion of Commissioner Jackson, to revoke the liquor license of the place today. The saloon was ordered closed immediately.

Investigation was made by the police into the complaint of A. Martine, that he was fleeced in a card game in the saloon on June 5, losing \$240 in cash and a check for \$100 which he cashed with the manager. After the police closed the case the money was returned to Martine by Paganini, evidently in behalf of a man by the name of Maher whom Martine said he met in the game.

In his previous citation before the council Paganini said the device of operating an electrical "buzzer" device to warn players of the entrance of the police. He could not understand what a buzzer might be, and today Mayor Davis recalled the incident.

During the discussion of the case the matter of gambling came up and the council went on record as being opposed to it in any form, instructing that the police keep close vigilance.

"When a drunken man told me that a Chinese lottery joint is operating right near the Y. M. C. A. where I live," declared Mayor Davis. "That's getting too close. These places ought to be closed down."

Turning to Acting Chief of Police Lynch, the mayor suggested that the police might "throw stones through the windows" of the joints in an effort to keep them out of commission. The chief of police said the joints have been closed and that the department is making every effort to keep them from operating.

# Judge Pulcifer's Judgment Sustained

Judge Harry W. Pulcifer has been sustained by the Superior Court in the case of L. L. Steele vs. Theodore Islip to collect commission on a building loan. The case came up from Judge Islip, where Islip asked for a flat loan of \$2000. One of Jungk's clients, a woman, agreed to advance the money on the installment basis.

Then the building project was postponed and the deal called off. Jungk presented a claim against Islip for the commission, amounting to \$200, which he later assigned to the plaintiff in the action.

Judge Pulcifer ruled against the claimant, holding that Islip had applied for a flat loan, whereas Jungk's client had offered to advance the loan on a basis of installment repayment. On appeal to the Superior Court this position was sustained.

# Women Enemy Aliens Register at City Hall

Under the direction of the police, registration of female enemy aliens over the age of 14 years was commenced at the city hall today. The registration will continue until June 26, inclusive. Registrants may obtain their cards between July 8 and 13. During the morning there were only seven women registered. It was estimated that there are between 500 and 700 women and children who should register, but it is possible that the number may be much lower owing to the slowness with which the registration started.

Those obliged to register must furnish the bureau with four copies of photographs of themselves, size 3x3 inches. The bureau is open all day and evenings. Applicants have been requested to appear during the morning, and to bring as far as convenient in order to avoid the afternoon rush.

**Articles Filed by Shipworkers' Club**  
To promote an esprit de corps in the ranks of the men in the shipbuilding industry in Oakland "The Shipworkers' Club" has been organized. Articles of incorporation having been filed in the office of County Clerk George E. Gross. Thomas D. Beck, 251 Twentieth street; R. Cadigan, 1400 Main street, and R. J. Campbell, 1401 Main street, Albany, subscribed to the papers as incorporators. The organization proposes to have a club house, with facilities for athletic and all the modern conveniences and comforts.

**Body Will Discuss Problems of Housing**  
Members of the Garfield Civic Association will discuss Oakland's industrial housing problem tomorrow night at the auditorium of the Twenty-third-avenue branch library. When they hear of the new shipyard and other factory development and its meaning in increased population and the need of dwellings for the workers expected to flock into Oakland.

# LARGEST SCHOOL BUDGET PINNED

Oakland's school budget for the coming year, now being prepared for submission to the Board of Supervisors, probably will be the largest ever for the city schools. It was announced today by officials preparing the estimates of expense for the coming year, due to the enormous growth of industrial population due to shipyard and factory expansion, and the need of new schools and new facilities and teachers to handle the work.

The average daily attendance to date shows an increase of 7000 children over the year before, and the attendance has been growing steadily since 1913. The average increase in attendance in the schools is set at 55 per cent, and the average assessed valuation has increased 34 per cent.

Present school buildings are inadequate for present needs, the officials point out, and many more teachers must be employed to handle the increases in classes in all schools. The budget will be ready for submission to the supervisors within the week, say school officials.

# BILLION POUNDS PORK PRODUCTS TO FEED ALLIES

WASHINGTON, June 17.—Pork products, plump up hundreds of thousands of pounds of food consumption, have given the American public a reserve of more than a billion pounds, the Food Administration announced today. This is enough to feed the allied forces for nearly two months.

There should be a drop in the high prices now prevailing for pork, if the stock of hogs continues to accumulate, it was pointed out. One reason for the high range of prices was the housewives' desire to have only choice cuts of pork, officials said.

# Police Inspectors Are Changed About

Captain of Inspectors Harry E. Green today announced a change in the assignment of police inspectors, to take effect Wednesday. The inspectors, who work in pairs, will be changed about under the new order. The new assignment of inspectors will be as follows:

Lou F. Agnew and William Smith (auto detail); Richard McSorley and George Forster (chicks); James Drew and John Dutton (pawnshop detail); Thomas Gallagher and John Ganaw; St. Clair Hodgkins and William Emigh; William Kyle and Joseph Robinson; Timothy Flynn and Thomas Dwyer; and William Thomas Pardee; Con Keefe and George Hall.

# Stay of Sale Granted Miller & Lux Estate

The \$400,000,000 property of the Miller & Lux estate will not be sold at Federal auction June 29, to satisfy a claim of virtually \$7,000,000 inheritance tax. Income tax was today being paid by the estate. The stay of sale was granted until July 17. The injunction was granted at the request of the estate.

# DEATHS

**CANFIELD**—In this city, June 15, 1918, Ada A. Canfield, wife of Charles Canfield and mother of Major George B. Canfield, of the U. S. Army, a native of Pennsylvania, aged 62 years, 10 months and 18 days. Buried at the funeral home of Mrs. J. H. Canfield, 2300 Broadway, near 20th street.

**CLARK**—In this city, June 15, 1918, William Clark, beloved husband of Ida A. Clark and loving father of Irma V. Clark and Mrs. Gertrude Clark, a native of Michigan, aged 78 years, 3 months and 18 days. Buried at the funeral home of Mrs. J. H. Canfield, 2300 Broadway, near 20th street.

**CONWAY**—In this city, June 15, 1918, Bernard Conway, beloved husband of Virginia Conway, and loving father of Leonard Conway and George Conway, a native of New York, aged 78 years. A member of Calvary Episcopal Church, No. 174, E. 14th street.

**DAVIS**—In this city, June 15, 1918, James N. Davis, beloved husband of Mrs. C. M. Davis, and loving father of Mrs. C. M. Davis, George M. Davis, Mrs. A. E. Bonington and Alvera Davis, a native of New York, aged 78 years. Buried at the funeral home of Mrs. J. H. Canfield, 2300 Broadway, near 20th street.

**DUBNER**—In this city, June 15, 1918, Mrs. Lillian Dubner, mother of the late Lucien A. Dubner and Rouben Dubner, of the U. S. Army, a native of New York, aged 78 years. Buried at the funeral home of Mrs. J. H. Canfield, 2300 Broadway, near 20th street.

# CLEVER SKETCH IS PANTAGES LEADER

Alive to the circumstances that have made it the only vaudeville house in town at present, the Pantages, a vaudeville house, blossomed out yesterday with a splendid bill. A sketch entitled "The Notorious Delphina" held the headline position. It deals with Delphina's past which bobs up at a critical moment in her daughter's career and threatens to blast everything.

Motion picture fans were given a good offering in a William S. Hart film called "Abies Turner." Music, smart chatter and pretty girls were represented in "Filtration," a musical satire on college life.

The Aerial Patts scored with their stunts while Moore and Rose piled up laugh after laugh with a snappy patter and a funny grand opera burlesque.

# CLAIR MAKES HIT IN "WALK THIS WAY"

In "Walk This Way," which opened last night at the New Bungalow theater, Roy Clair makes a hit. Clair gives quick action and a beauty chorus. Roy Clair surpasses his own best work, and with whom the United States requires quick action and a beauty chorus. The audience is kept in laughter.

George Carlin, the comedian, takes the part of the jealous wife, who hawks her husband. This is one of the funniest impersonations Miss Jardiniere has taken.

# WILL LLOYD SCORES HIT AT YE LIBERTY

The proved shrewd comedy was presented last night at Ye Liberty playhouse in "Nothing But the Truth" in which Will Lloyd, the English actor, made his debut with Ye Liberty players and proved himself a master of fun-making. Although Lloyd predominated every night, there were many other excellent bits of acting, notably by Betty Brice, who played the leading feminine part; George P. Webster, who made an excellent "Nothing But the Truth" in which Will Lloyd, the English actor, made his debut with Ye Liberty players and proved himself a master of fun-making.

# TWO STARS APPEAR AT THE AMERICAN

The American is presenting until tomorrow night two feature productions, "All Woman," with Mae Marsh in the leading role, and "The Firebrand," with Virginia Pearson as the star. Music of descriptive character is provided by John Wharry Lewis and his orchestra. Live news of last week is given in the Animated Weekly.

**Oakland Residences Greatly Increased**  
During the last two years there has been an increase of 1407 in the number of residences built in Oakland, according to figures compiled today by City Auditor and Assessor I. Harrison Clark. Business houses in the same period have increased by 176, apartments by fifty-four, schools by 12, and churches by 24.

The total number of residences in Oakland is 39,925; business houses, 2314; apartments, 252; hotels, 37; public buildings, 9; fire houses, 12; schools, 67; depots, 16; churches, 121, and hospitals, 11.

# Council Votes to Pay Morf's Salary

Over the adverse vote of Commissioner W. H. Edwards the city council today passed the claim of City Attorney Paul C. Morf for his salary during the month of February during which time he was on leave of absence in the east. The claim was held up in the first place, it was said, through political machinations. The amount, which Morf will now receive is \$416.67.

# MARRIAGE LICENSES

**COLLINS-GUNN**—Walter S. Collins, 38, Alameda, and Edna Gunn, 38, Alameda. **COLLINS-GUNN**—Walter S. Collins, 38, Alameda, and Edna Gunn, 38, Alameda. **COLLINS-GUNN**—Walter S. Collins, 38, Alameda, and Edna Gunn, 38, Alameda.

# BIRTHS

**HEMPHILL**—May 6, to the wife of Robert Hemphill, a son. **HALLWAY**—June 12, to the wife of George Hallway, a daughter. **WILLIAMS**—June 9, to the wife of Nathan Williams, a daughter.

# WILL PLANT OLAM CROP ON BAY FARM

ALAMEDA, June 17.—Alameda's claim farm on the mud-flats of Bay Farm Island is not to be lost to a pipe dream or into a state of delusion, innocuous as it may seem, to be a real live claim farm, originated by Assessor Joseph M. Kelley and fostered by the health department of Alameda and Oakland and the food administration officials of the two cities.

This morning Assessor Kelley, with Denton and Smith of the Oakland board of health and Dr. T. Carpenter, representing the health department of Alameda, made an extended tour of Bay Farm Island in a gasoline launch to locate the best available spots for the growing of olam, a vegetable which is a native of the island. Kelley, the chief claim beds of San Francisco bay. Chinese and others have so industriously dug at the bed of the bay that the supply of olam has been materially depleted. Now it is proposed by Kelley to replant the hundreds of acres of Bay Farm Island claim lands with claim olam, secured from the State game and fish commission. A claim will grow from Spanish olam, a native of the island, and under-sized claims encountered by the diggers suffer no injury from being dug up and examined if they are later dropped back into the water.

The launch trip this morning was to make water tests. Claims reared near sewer outlets are liable to be contaminated with water carry typhoid and other germs. The Bay Farm Island water is pure salt sea water, unmarred by any organic matter, and is ideal for the production of healthy and abundant claim crops. The claims are not to be raised for commercial purposes, but to be used for the benefit of anyone possessing sufficient ambition to dig them from the mud. It is believed that re-planting the flats with olam will result in a plentiful supply of claims for a number of years.

# "MIDNIGHT MADNESS" FRANKLIN FEATURE

Today and tomorrow the Franklin theater presents "Midnight Madness," and "Mystery in the Old Loves for New." "Midnight Madness" is a detective mystery drama and in some respects is a sequel to a play entitled "The Mysterious Case of the Old Loves for New." The same characters are perpetuated.

Frederick Tiller is a strange individual who seems to always get himself into the middle of any scrape that comes up, and who always manages to disappear without having been captured by the police, nor is he followed by the police. He is a "rascal," as played by Lloyd in other cities. This rural comedy will open Sunday.

# WORLD'S RIVETING RECORD BROKEN

Again has the world's riveting record been broken by the workers of the Bethlehem Shipbuilding Works having driven 55 1/2 seven-eighths inch rivets by hand in nine hours and 17 1/2 minutes, a record which was broken by the workers of the Bethlehem Shipbuilding Works having driven 55 1/2 seven-eighths inch rivets by hand in nine hours and 17 1/2 minutes, a record which was broken by the workers of the Bethlehem Shipbuilding Works having driven 55 1/2 seven-eighths inch rivets by hand in nine hours and 17 1/2 minutes.

The record in this class today is as follows: Charles Shock, Baltimore, 2719 rivets in nine hours; John Carigan, Great Lakes, 2419; Robert Parrant, London, 2427; Charles Knight, 4875, and Judnach, 5574.

# Petition to Put Utilities to Voters

Containing 11,630 signatures of Oakland citizens, a petition asking the Council to place the utility question before the voters at the August primaries the proposition for forming a public utility district was filed with the Council today by the Public Utility League. The petition was referred to the city attorney and the city clerk for a report, but the Council as to the legal procedure that may have to be followed.

It was stated that under the constitution sections ask the people may be placed before the people without additional expense of a special election, the final election for salaried directors of the district to be held on November 5, the state general election.

# WAR TIME Dinner Sets \$8.95

By eliminating seldom used pieces we ordered these sets made up special that we could offer them at War Economy Prices

The Sets Consist of 48 Pieces

# COMPANIONS OF O'LEARY TO BE JAILED

WASHINGTON, June 17.—The capture of Jeremiah O'Leary, Irish-American leader, under indictment in New York, in a mountain cabin in Washington will be followed soon by arrest of a number of other agitators in the United States on charges of treason or espionage.

The government has considerable undisclosed evidence against O'Leary and his companions, it was learned today and arrest of his coworkers has been deferred only pending his apprehension.

Jeremiah O'Leary, indicted in New York as a German-Irish plotter, was arrested in a mountain fastness of Washington state, where he had fortified himself behind barbed wire, armed himself well, provisioned the place for six months and declared that he never would be taken alive.

Details of the capture have not been received by the Department of Justice, agents of which were responsible for trailing him and making the arrest.

It is known that Chief A. Bruce Bielaski's men have been steadily on O'Leary's trail.

**EASILY FOLLOWED.**

It was not a hard trail to follow, owing to the man's striking height and his unquenchable habit of voicing his opinions against the British in almost all company.

The Washington officers notified the Oregon officers that O'Leary had crossed himself in the mountains near Searsville, a desolate little hamlet in the mountains north of Portland.

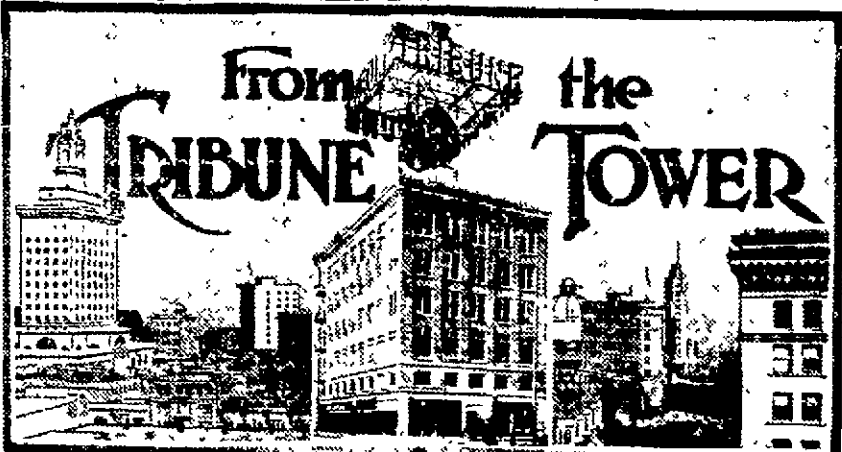

The Oregon officers quickly located O'Leary's refuge and reported what he had done there.

**HEAVILY ARMED.**

In a little cabin of heavy logs, high up on a bald hill, O'Leary had armed himself with a liberal supply of rifles, revolvers and ammunition.

The place had been surrounded by entanglements of barbed wire, which might have done credit to a German first line trench.

O'Leary had two dogs with him, indicated as "man-eaters," and sure to

Policeman Fife is the Lilliputian of the police department. He stands six feet four in his bare-shin soles, only most of the time he sits.

Fife outdoes anything ever seen in Christendom. He brings his lunch in a suit case, and sometimes takes three or four thermos bottles to give him a cup of coffee and a loaf of bread looks like a giant to him. In fact when Hoover first ordered conservation his order ran:

"Save food (and shoot Fife)." Last week Fife went on a vacation. Chief Nedderman called him into the office.

"You are getting fat," he said. "Train it off during your vacation."

So Fife went down to the Bethlehem shipyards and hunted up the man who employs riveters, and said he wanted a job. He had his suit case with him—one of 'em. The man looked him over.

"Got your card?" he asked. "What card?"

make the presence of any strangers known.

**SIX MONTHS SUPPLIES.**

The place had been stored with canned goods, flour, bacon and coffee sufficient for six months.

It was not stated in the report whether O'Leary was accompanied by confederates.

To this report the reply of the head of the Secret Service was characteristically laconic. It was:

"Arrest O'Leary."

Last night an equally laconic reply came back. It read:

"O'Leary arrested."

And Chief Bielaski is waiting for the mails to bring the details of the report.

It was not stated here what steps are being taken to return O'Leary to New York, but it is presumed that he will be brought there as soon as possible.

"The card from your mamma, that you can work more." Fife says he is going to wear a sailor-hat with a ribbon on it, after this.

**HAMMERING RIVETS.**

William McCloud, recently retired, is also hammering home rivets to beat the Hun!

McCloud's foreman came around yesterday and watched him for awhile.

"Say," he said, "for an amateur, you're hittin' them rivets darned accurate."

"Where do you get that amateur stuff," retorted McCloud. "Haven't I been hammerin' heads in the police business for years?"

**A GOOD BOOK.**

WHATEVER IT IS ABOUT.

We have a book critic on the paper. He has to read over all the world's literature and express his opinion about it. The marine reporter used to do the work.

But now we have a real critic because the waterfront man couldn't stand the highbrow strain and took to drink.

The other day a book came in with one of these simple titles: "Esoteric Esthetics of Super-Culture." The critic looked it over. Then he walked in very softly to the city editor.

"You review it, will you?" he asked.

"Sure," said the reckless c. e. Then he took it and passed it on to the society editor. She in turn handed it to the club editor. The club editor passed it along to the sporting editor, and he did the dirty work.

We still have the book. The sporting editor has gone to the springs.

Laterae bustum omnia!

**News of the Churches**

Rev. Lafayette Armstrong McAfee, D. D., moderator of the Presbyterian has been selected to that office for two consecutive terms, an innovation in the official body of churches and congregations of the denomination in San Francisco and Alameda counties.

Dr. McAfee is the son of the founder of Park college, Rev. J. A. McAfee, from which the son was graduated, as well as from the Methodist Episcopal ministry. He served as pastor in the Presbyterian church of Phoenix, Arizona, from which he resigned to take charge of the First Presbyterian church, Berkeley, where he has served for twelve years. He has been especially active in Christian Endeavor work.

**DR. SILEY ON FRANCE.**

"Americans must not and will not let France go," said Dr. Siley at the First Presbyterian church last night, speaking on "Has God Forgotten the French and English and Their Cause?" Continuing he said:

"We are not so much concerned today with the attributes of France as we are with the fact that she is a nation that God is and what concerns us most deeply is what He is thinking about. Is He remembering the nations sacrificing for truth and righteousness and for the forgotten France? How can He forget France that is raising to Him today a reverent and grateful prayer? He will not forget the France that is not unbelieving but Christian and standing for the highest idealism."

Dr. Siley said that France has been the pioneer for liberty of people's government in France. France has been the nation that has stood for the rights of man and square deal. If the French temperament given license has led into follies of life and internal strife, that parliament has been a source of national power, unity and progress. It was France under such leaders as Lafayette that saved America from the grasp of British rule and independence and it is America today that will help save France, lovely, heroic France in her struggle for independence from Prussian rule.

"What is France fighting for? Fighting for her life and fighting to free Alsace and Lorraine which are as truly French provinces as California is American. Germany has never been able by her vicious policy to turn the French into the souls of the Alsatians. The Alsatians are the most beautiful martyrs to true patriotism that the world has ever known. France is fighting against having the world ruled by a man on a Krupp's gun. She is a most peace-loving people as indicated by her national hero, who was placed Pasteur, the scientist, first and Napoleon, the warrior, fourth."

"France has been chastened and at its worst, French republicanism was not so bad as Prussian militarism and heathenism. She is spiritually free today and God will decree for her a glorious future. Long live gallant France!"

**DR. KLOSS ON BEER.**

In speaking last night at Plymouth Congregational church on "Food, War and Beer—What to Do About It," Rev. C. L. Kloss said:

"Religious and non-religious organizations all over the land have petitioned the President and Hoover to use the power entrusted to them to abolish for the time of the war the sale of food stuffs in the manufacture of beer."

"The general assembly of the Presbyterian church in its recent session has a notable deliberance on this subject. It was generally felt by all present, that there was an inherent contradiction between the economy, or conservation of human energy, or saving money for the greater purposes of the nation, while the brewers were allowed to consume vast quantities of food stuffs in making beer."

"Mr. Hoover said a few days ago that drinking men would not be allowed to consume the large stocks of whisky and gin and brandy now in saloons and warehouses, should the sale of light drinks be stopped. Where is the great power of the Federal government that it could not confiscate the whisky, gin and brandy and reduce the stocks to nothing?"

"A drive is on for the sale of War-Savings and Thrift Stamps. But who will make sacrifices if the sale are made? The women and children, to be sure. They must give up candy and other useful things while greedy, selfish men insist on satisfying all their appetites. Candy is nourishing food for a child. Alcohol is poison for a man. The child must deny itself food to buy stamps because he must have his poison."

"This saving plan is fine, but it is one-sided. It should be two-sided. It is a patriotic and economic necessity. We must all save even penny of food stuffs. None should be exempt. We must win the war."

"As Lloyd George put it, England had two enemies, the Hun and the Hun. It is an open question whether the former is not the greater menace to the allied armies."

**DR. LYON'S LECTURES.**

Rev. Edward P. Lyon closed his meeting last night at the Melrose Baptist church, with a full house and a fine interest. This meeting, continuing over two Sundays, was a success. Sinners were converted and Christians strengthened in the faith.

Dr. Lyon is not so much of a revivalist as he is a teacher. He is a very pleasing speaker, and through a careful selection of his material, he presents his message in a way that pleases his audience, even young children following

# SMALL CLEW DARES NEW PLOT TO BURN

FRESNO, June 17.—Discovery of an ordinary tin shoeing, one end charged and the other attached to a tightly bound packet of matches, has revealed what is believed to be a widespread incendiary plot. Following an attempt to destroy a train of 19 food and produce cars on a siding at Paige, a hay and cattle loading station of the Santa Fe, in Tulare county, an investigation was begun by agents of the Department of Justice which may lead to the uncovering of an organized I. W. O. U. campaign of incendiarism.

Its purpose is to prevent shipment of foodstuffs and paralyze freight traffic.

**COVERED WITH SALTPETER.**

The shoes had been impregnated with saltpeter, making a fuse that would burn surely and without sputtering, but slowly enough to allow the incendiaries time to make good their escape. The fire, started early Sunday morning, June 16, which resulted in the discovery of the new method of incendiarism, destroyed three empty refrigerator cars and the loading platform at Paige.

Santa Fe crews were rushed from Tulare City and the three burning cars were pulled away from the rest of the train. Sheriff Court Smith of Tulare county was notified, and Special Agent D. J. Craig of the Santa Fe was summoned from Fresno.

The shoe strings were the only clews found.

**NOBODY U. S.**

As soon as proof of the incendiary origin of the fire was discovered United States Government investigators were notified. At the same time every sheriff in the valley and every special agent of both railroads were warned to keep watch for the incendiaries, who are believed to be German agents or I. W. O. U. Un-American Government agents have two men under surveillance, and arrests are expected to occur at any hour.

"We do not know whether the fire was started by German agents or by I. W. O. U. Special Agent D. J. Craig of the Santa Fe. "We know that the fire was of incendiary origin. The fuses, made from ordinary wide tan shoe strings such as laborers use in their heavy boots, are in the possession of the Federal Government operatives. The only reason the attempt to destroy the entire nineteen cars was not successful was that two of the fuses went out as they passed under the car doors. Three of these fuses were used, one at each end of the train and one in the middle."

**TRANSFER LINES**

**ASK FOR INCREASE**

Ten bay district transfer and express companies have asked the State Railroad Commission to increase their rates. The companies include California Transfer, Oakland Transfer, Delaney Transfer, Freight and Draying Company, Santa Fe Express and Draying Company, Williams Motor Express Company, 5-Line Transfer Company, People's Express Company, American Transfer and Draying Company, Kellogg Express Company and the Merchants' Express and Draying Company.

These companies all do business in and around Oakland, Berkeley, San Lorenzo, Richmond and San Francisco, and their application asks for the same increase in rates due to increased wages, the eight-hour day and increased ferry rates. The proposed and present rates are as follows:

Zone 1—

1 to 10 pounds..... 15c

11 to 20 pounds..... 20c

21 to 30 pounds..... 25c

31 to 40 pounds..... 30c

41 to 50 pounds..... 35c

51 to 60 pounds..... 40c

61 to 70 pounds..... 45c

71 to 80 pounds..... 50c

81 to 90 pounds..... 55c

91 to 100 pounds..... 60c

Zone 2—

1 to 10 pounds..... 15c

11 to 20 pounds..... 20c

21 to 30 pounds..... 25c

31 to 40 pounds..... 30c

41 to 50 pounds..... 35c

51 to 60 pounds..... 40c

61 to 70 pounds..... 45c

71 to 80 pounds..... 50c

81 to 90 pounds..... 55c

91 to 100 pounds..... 60c

Increased rates for carrying packages and cartons in excess of 100 pounds are asked. The present trunk rate of \$1 to be increased to \$1.25.

hum with interest. His closing talk was on "The Second Coming of Christ."

He cautioned against setting a date and getting ready for the event at some future time. He argued that because we do not know the time there is the incentive to "be always ready and such as you think not the Son of Man cometh."

The pastor of the church, Rev. H. D. Zimmerman, expects to repeat further results from the good seed sown in this meeting.

**EVANGELIST BULGIN.**

The pastor of Pioneer Memorial church, Harold Bulgin, reports a very successful day yesterday. The crowds were immensely large and Evangelist Bulgin preached two good sermons. The last one, preaching on "The Triumph of the Cross," and in the evening on "The Unpardonable Sin."

The subject tonight speaks for itself: "Blackboard Boarding and Boozing." These meetings will continue all this week with preaching every afternoon at 8 and evening at 8 o'clock.

**FIRST CHRISTIAN.**

Rev. H. A. Vane, pastor of the First Christian church, gave his congregation some hot shot Sunday morning on the subject, "After Conversion—What?" He pointed out that many of the translators of the old version understood it, but active as the revised version puts it, Peter is not to be tempted and be converted, but to repent and turn. Conversion is not something done for us but our own act of turning to God. It is nothing to glory in, but a "glorious conversion" thirty or forty years ago. That was only enlisting in the service. The important thing to know is that you are facing the foe today.

# To Re-Dedicate War Services Score of Organizations to Meet

Representatives of twenty-five organizations pledged to do all in their power to aid in winning the war will hold re-dedication services next Saturday. In connection with these services there will be entertainment features of a patriotic nature, and it is expected that there will be a large attendance at Neptune Beach, where the services will be held.

The Oakland War Service League, with the leagues of Richmond and San Leandro, have a pledged membership of nearly 30,000, and they have invited the cooperation of the Women's Army, Red Cross, Community Service League, Grand Army, Rotary Club, Deacons' Club, Liberty League, Committee of Alameda County, Council of Defense, Sons and Daughters of Washington and organized labor to take part in the ceremonies of the day of loyalty planned for re-dedication day.

One of the features of the rally will be an educational food conservation display conducted by the food administration bureau, at which recipe books and other useful literature will be given away. Food Administrator Harmon Bell is chairman of the

executive committee, William Nat Friend is director of the day and one of the short-talk orators, Percy Young has charge of the special events and general management and W. E. Castro, organizer of the American Federation of Labor, represents labor on the committee.

A special feature of the day will be a series of patriotic tableaux and dances to be given by society young ladies, under the direction of Miss Vivienne Tweedle of Alameda. Those taking parts in these tableaux are Misses Juliet Weinstein, Kathleen Rosegrant, Rosemund Miller, Jewel Brooks and Dorothy Treumann. The program of dances is the same as given with great success for the Red Cross, Knights of Columbus, Y. M. C. A. and Melman roller rink. Other special features insuring a continuous entertainment all afternoon and evening are being arranged. The committee announces that the grounds are fitted for pleasant picnicking where lunches can be enjoyed and that in order to make it a day of damnable war service loyalty profitable to all admission tickets can be secured in any number from the War Service League, 311 Central Bank building for 10 cents each, including the war tax.

# Pastors Hold Last Meeting Tomorrow

Rev. James Whitaker, secretary, announces that the next regular meeting of the Oakland Ministers' Union will be held tomorrow at 11:30 a. m. at the Y. W. C. A., 1515 Webster street. As this is the last meeting before vacation, every member is requested to be present.

# SELF STARTING REMINGTON TYPEWRITER

This new invention permits your typist to keep her eyes on her copy. The machine doesn't have to be looked at, or the scales watched. The time saving is automatic. There is no other typewriter like this. Fully protected by Remington patents.

The Self Starter, while adding to speed, adds nothing to the cost of the typewriter. It is part of the machine.

Try the time saver on your own letters. We are constantly making demonstrations throughout the city—they involve no obligation on your part. Shall we put you on the list? Write or phone us. Descriptive folders also mailed on request.

**REMINGTON TYPEWRITER CO.,**

(

A person started to go bad. Heister had been in the fourth inning for Richmond and was on the bench. Heister was in the fifth fly to Freitas. In the fifth McMorrough opened with a single and walked. Heister was on the bench. The bases were loaded. Heister's fly chased in McMorrough and that was as far as the Richmond boys could go at that time. In the sixth George McMorrough hit a home run. Heister went out to the left field gate and spurted all the way around for a home run before the umpire could get the ball back to infield.

A double by Hollis, a wild throw by Lammann and Gallova's strike made it 6-0 in the seventh. Then came the big inning in the eighth. DeFesta singled, Heister doubled and Lammann hit a home run. Heister pitched and Chuck Autrey put on two unearned touches when he shot the ball out of the lot for a home run with two men on base. Heister pitched the eighth and ninth duty and pulled out of the inning without any more scoring, although he had a chance for Hollis managed to touch him up for a single.

## A PROBLEM TO BE SOLVED.

No person possessing the slightest acquaintance with conditions in the communities on the east bay shore can be ignorant or unmindful of the most important problem now pressing for solution. That problem is the extension of housing accommodations. It should be met promptly.

Every reader of THE TRIBUNE has been informed of the expansion of the shipbuilding and other industries during the last year and of the schedules for further expansion during the next few months. This newspaper has printed the details of plans to increase the Alameda plant of the Bethlehem Shipbuilding Corporation until it will employ from 15,000 to 20,000 men. It has told of the plans of the Moore Shipbuilding Company to about double its present capacity and working force; of the expanding program of the Hanlon Shipbuilding Company, the Union Construction Company, the Rolph shipbuilding plant, Barnes & Tibbitts and the Parr Terminals Company.

Numerous other industrial plants have recently located in the east bay district and others have made important extensions. Shipbuilding will not stop with the end of the war. It will continue at high speed long after peace is established. And shipbuilding is acting as a stimulus to industrial activity in this district that will result in scores of new manufacturing and industrial concerns not related to war business. An impetus has been given which will establish the industrial, commercial and shipping prosperity of the district for all future time.

As THE TRIBUNE has frequently said, the hour has arrived for which the Alameda County communities have been waiting since they were first founded. The question is, what shall they do in this hour?

If the government one year ago had asked the business and financial men of Oakland, Alameda and Berkeley to guarantee adequate housing facilities in case 50,000 or 60,000 new wage-earners were put to work on the east shore there would have been immediate and favorable response. If any one had said: "You, east bay cities, may have an increase in your industrial payrolls of from \$100,000,000 to \$150,000,000 a year. Do you want it and are you willing to exert yourselves to get it and the accompanying advantages?" the reply would have been, "We will do any and all things necessary." Had the business men been asked to guarantee \$5,000,000 worth of new housing facilities they would have done so without question.

It seems to THE TRIBUNE that an almost identical situation now exists, without, of course, any conditions having been imposed. The new workmen are here and arriving rapidly and the increased payrolls are certain.

Now what is to be done to convert the new wage-earners into permanent residents, occupying east bay homes and disbursing their incomes in this district for the support of themselves and their families?

Suffice to say that something must be done, and quickly. It is a community problem for the solution of which all the elements of the business life must lend earnest thought and effort. Business doubtless knows what to do and how to do it, and providing it realizes that there comes a time when public service deserves consideration all may turn out well. We shall soon see.

## CORRECT FOR ONCE.

The German press is howling at the prospect that *kultur* has received a death blow in America and that never again will opportunity to exploit it in this country be the same. It is not possible that the German writers, who get their orders and their inspiration from the military dictators, realize how well-founded are their fears.

Among the Americans of German blood who sympathized with Germany at the outbreak of the European war is Henry Riesenberg, a prosperous business man of Indianapolis, who came to this country as a youth from Russia. But today Mr. Riesenberg, at a considerable sacrifice of time and money, is traveling all over the country, urging men of German blood to forget their German sympathies, the German language and everything else German and become 100 per cent Americans. Says Mr. Riesenberg:

"This is no time for men of German birth to sulk

in their tents. Declare your fealty to America from the house-tops, if necessary, and show our fellow Americans that we can come out as boldly as they for the basic principles of liberty.

"I conceive patriotism to be love of country and expressed in terms of service. Patriotism to us means to drop the German language and join in singing, in the language of America, 'My Country, 'Tis of Thee.'

"The Germany of today—of blood and iron, of deceit and duplicity, the land whose brutalities drove us into this war—is not the Germany of Goethe and Heine, the Germany that we all loved. It was a soul-crushing moment to me, and to all of us when Germany was accused of her monstrous crimes. We could not believe it at first, until the situation became clarified. From now on we must be 100 per cent Americans. We will then feel that the melting pot has done its work."

The melting pot surely is doing its work well, and the kaiser and his fellow criminals must feel chagrin when they stop to think that they have fanned the flames under it. Thanks largely to the spirit which animates present day Germany, Americans are more united today than they have ever been before.

## SATISFACTORY REPORTS.

Figures on two important phases of the military condition of the United States were given Saturday by high officials of the government. The statements are authentic and there is no occasion to amplify them by speculation.

General March, the chief of staff, announced that over 800,000 men have already been sent overseas and that by early July the total number in the European war zone will be 1,000,000.

Major-General Crowder, the provost marshal-general, announced that the total strength of the army establishment, in this country and overseas, on August 1 next will be 3,000,000 men. Of this vast army, 1,347,000 men have been called to the colors through the selective draft and one million are volunteers in the regular army and national guard. The remaining 653,000 of the 3,000,000 will be called from the draft registrants before August 1.

Both General March and Major-General Crowder have given the country very satisfactory information. One million men overseas by July and a million and a half more in training is a fair performance for the first fifteen months of the war. It is not as large as we wish were possible, but it is so much better than many persons, including the German kaiser, expected than it is pleasant to dwell upon. Of the troops mobilized, but still in this country, nearly two-thirds of them have been in training for several months and are ready for transfer to France as soon as the ships are available. After a couple of months' training behind the battle line they will be ready to meet the Boche on his own ground.

To the progress noted in the army may also be added that of the navy. Secretary Daniels told Congress Saturday that the new ships to be in commission during the coming twelve months will require an addition to the enlisted personnel of the navy of 40,000 men. With Naval Reserve, naval militia and non-combatant units, the total strength of the navy may soon be over 500,000 men.

Although the employment of the various ships that comprise our war naval forces cannot be given, and is in fact known only to the naval staff at Washington, it may be taken for granted that a grand fleet enrolling the services of half a million men is performing a large service in winning the war.

## THE DAY OF THE AUTO.

Even before the government assumed control of the railroads the auto was giving them a sharp competition for local freight and passenger traffic; and since the advance in railroad rates that competition will be greater.

In some of the Northwestern States trains are running half full of passengers, and the country roads that parallel the railroads are crowded with auto trucks all day long and half the night. In Nebraska there is one auto for every forty persons in the State, or one for every ten families.

The farmers are extensive purchasers of autos. In towns not large enough to make a trolley line profitable omnibus autos are run between the railroad station and the outskirts of the town.

Considering the crowded condition of city streets and the rapid pace of the autos the percentage of accidents is really very small.

## SOLVING THE LYNCHING PROBLEM.

"What is Georgia going to do to put an end to this constantly recurring disgrace of mob violence?" asks the Atlanta Constitution, which, to its honor, has been vigorously denouncing the lynching evil during a long period of time. "Are we going to handle it ourselves or wait until the Federal Government steps in and handles it for us?" We must either act ourselves or be prepared for the Federal Government to do so—for the civilized people of this country are not going to indefinitely tolerate such a disgraceful barbarism, in Illinois, in Georgia or any other State."

Approving the Constitution's assertion that the civilized people of this country will not tolerate such primitive barbarism indefinitely, the Houston Post answers the questions of its Georgian contemporary. "The South," the Post declares, "will not handle the mob problem. It is going to wait until the Federal Government shall step in and handle it, and that is going to be within five years or an even shorter period. The method of handling it is not going to be to our liking. It is not going to be exactly according to our doctrine of States' rights or according to our ordinary criminal procedure. There will be a Federal statute the execution of which will depend upon local officers who hold office through the favor of the friends or relatives of those who participate in mob murders."

The Post draws attention to one of the basic weaknesses of the situation in its reference to local officers being at the mercy of defenders of lynchers. And it sounds another solid truth when it says that a way to handle the lynching problem has not been found by the Southern States "or seriously looked for." There is no way has yet been found to make them generally effective. When lynchings have been prevented, and many have, it has been where sheriffs and other officers have shown themselves to be stronger, in a sense, than the law they are upholding.—New York Herald.

## NOTES and COMMENT

Jeremiah O'Leary, indicted plotter, who "would never be taken alive," is in jail and living. You can bluff some of the people some of the time, but there are agents of the Department of Justice who come under another head.

Porterville is enforcing a quarantine of the foreign section with shot-guns. Certain Americans in Europe are doing the same thing in the same way but on a larger scale.

Lenine is planning a visit to Berlin in order, according to the dispatches, "that he may meet prominent personages." If he will hurry he may shake hands with Pershing and his merry men and shake hands through the bars with Bill and the princelings.

There is a rumour in Germany, according to a Frankfurter newspaper, which proves that news is news in Hunsland even though it is four years old.

San Francisco police are looking for a lost cow that responds to the name of "Betty." And here's one lost lady case that the authorities can't credit to white slavers.

Switzerland and Holland report that there is much disturbance in Austria-Hungary and that the death warrant of the Vienna government has been signed. As was to be expected, the announcement was followed by a grand offensive on the Italian front.

Unfortunately that the Pacific Coast slacker who go to sea to escape the draft cannot be transferred to the Atlantic. A touch of Deutschum through submarine assassins might effect a reform.

The Supreme Court's temerity in declaring the illy conceived Federal child labor law to be unconstitutional is seized upon by Senator Owen as an excuse for bringing forward once again the Oklahoma Idea—which is that Congress, and not the court, shall pass upon the constitutionality of an act of Congress. That idea has about as much chance of gaining the approval of the people of this country as the proverbial snowball consigned to the region of perpetual and immeasurable heat has of becoming an iceberg. Before the American people could be expected to trust Congress with the functions of the Supreme Court in addition to its present duties that body would have to occupy a much higher place in the public esteem than it does now or than it ever could if it were to give serious consideration to the Owen proposal. For another thing, a time when Germany and her allies are trying hard to destroy this Republic is not a good time for any American to advocate a policy that would lead to its destruction.—New York Herald.

Some of the men to whom Uncle Sam will offer the choice of a rifle or a pick will look more awestruck with the pick than with a rifle. There are far more useless people in this world than one imagines, but a lot of those who look useless are merely lazy and can be made to work.—San Francisco Chronicle.

A Welsh soldier wrote at the head of a letter to his mother, "Braith yn dagan," and the censor, believing this to be a Welsh motto, something like "God bless our home," allowed it to pass. To the soldier's mother it read, "Arm in tears," and she knew that her son was somewhere near Antwerp.—Pittsburgh Chronicle-Telegraph.

King George will get along without male domestic servants under thirty-five years of age. He sets a good example to Englishmen, and to Americans. Waste of man power is bad. Employers of chauffeurs for pleasure cars will please take notice.—Brooklyn Eagle.

## SPIRIT OF THE STATE PRESS

Colonel Frank Baker, commanding officer of Benicia arsenal, has seconded the request of Dr. Gillman that the city trustees insure more sanitary conditions in Benicia, not only in the interest of his soldiers but of the citizens at the arsenal. The request of Colonel Baker should be noted by Benicia citizens who can do much to cooperate and ought to be complied with promptly by the authorities.—Benicia Herald.

Growers who received last year a higher price for their barley than they did for their wheat and who in spite of the fact that the food administration was calling urgently for more wheat, still persisted in putting in barley in the hope of a reputation of better price, are doomed to disappointment as well as disrespect. The anomalous situation by which wheat substitutes have commanded a higher price than wheat itself has been corrected. The government has found that the strong arm and the imperative order is more effective than gentle persuasion or appeal to patriotism.—Chicago Enterprise.

Farm gardens are to blame for a lot of newly found ignorance. Will some one tell Roy Cowles what's eatin' holes in his little cabbage plants he bought? Are the little green fleas on his tomato plants branding the poison to make the trout eat it should they be foolish, and if so, is a camel's hair brush good? What will stop sparrows from eating the tops of his peas? Also what is a good remedy for snails? This man has found a lot of things he does not know, and his war garden is the key to his desire for information.—Solano Republican.

## A FIGHTING PARSON.

The Rev. E. C. Palmer, a Methodist minister and brother of New York Park, who has resigned his pastorate to join the army, has been ordered to go to a training camp to serve in the army as a private soldier. "The best way I can serve the Lord," he said, "is to help beat the Hun." Well, it is the declaration of a religious principle worthy of the prayerful consideration of the "church militant" everywhere. It's a good time to sing the old Methodist hymn: Shall I be carried to the skies, on cloud or beam of light, while others fight to win the prize And sell through bloody strife?—Kansas City Times.

## Compliments of the U. S. Marines to His Royal Highness Frederick Wilhelm's Imperial Nose!

## TODAY 20 YEARS AGO

Governor Budd directed Colonel Park Henshaw to inspect sites available in Oakland for a camp for the new California regiment.

Mrs. Granville Abbott, president of the Oakland Red Cross Society, put herself on record as emphatically opposed to any criticism from members of the society regarding the management of the funds by the executive committee.

Mrs. J. Y. Miller and Jack Miller of Fruitvale left for Santa Cruz.

Mrs. R. Dewey Wilder of Oakland, a cousin of Admiral Dewey, was the guest in San Jose of Mrs. Emma L. Parker, the contestant in the celebrated Parker contest.

Members of the Oakland Carmen's Social and Benevolent Society held their first ball in the Masonic hall. On the committee of arrangements were: H. L. Boyle, E. M. Skaine, A. R. Parker and G. Doolen.

## ESCAPES A COSSACK.

An American girl traveling alone recently through Siberia was awakened at 6 a. m., one morning, when the porter ushered an all-Russian Cossack into her stateroom. The girl was Miss Madeleine Doty, who was on her way around the world for Good House-keeping. She tells about this experience in the current issue as follows: "It was six a. m. when I awoke with a start. My stateroom door had been flung open. The Russian porter was showing a Cossack soldier into my compartment. I sat up in my berth and let forth a flood of English; I gesticulated wildly, but the Russians only shook their heads. Then the Cossack dismissed the porter, closed the door and locked it. Tales of Cossack brutality surged through my mind. I felt for my money under my pillow. My heart beat violently. The soldier was distinctly disagreeable. He saw my discomfort and I enjoyed it. He gathered up my scattered garments and flung them into my berth. Then he slowly took off his coat and shoes and climbed into the upper berth. I heard him making his preparations for sleep. I listened breathlessly till all was still. Then I stealthily began to put on my clothes. When dressed in my coat and skirt crawled out of the lower berth and stood up. The soldier was lying above me with eyes wide open. He had a cigarette between his lips. He puffed at it leisurely and grinned at me amiably. A wave of resentment seized me, but I picked up my comb and brush and began quickly to do up my hair. My hand trembled. I gathered up my possessions, unbolted the door, flung it open, and in a moment was out in the corridor. But it was dark as night outside. Not until nine a. m. would light appear on the horizon. Every compartment door was closed and locked. At the end of the car the porter snored peacefully in his bunk. I stood in the swaying train corridor and waited for the dawn. "I found out later, that to the Russians on the train, I seemed finicky. The Russian revolution was raging. Life had gotten down to the elemental. There was no room for conventions."

## GETTING OFF TOO EASILY.

The fifty Germans arrested in various resorts in New York City Monday night, where they were rejoicing over the results of the U-boat raid along our coast, are likely to do little rejoicing during the remainder of the war. Confinement in internment camps should reduce their exuberance, and if that fails there is such a thing as setting them at work in war gardens to raise food for our soldiers.

## SOME JOB.

Anyone who has ever led a drunken man home will understand the latest heroism in President Wilson's declaration that he intends to stand by Russia.—Toronto Mail and Empire.

## MORE WORK, LESS PARADE.

We are gradually learning what to do and what not to do to win the war. Moreover, we are discovering that what was essential and necessary a few months ago is not always necessary today. And when work comes to be necessary it becomes a dangerous hindrance. It is a waste, and we can more readily lose the war by waste than by any other blunder.

Parading, for instance. Parades of soldiers are not apt to interfere with their training and offer little room for criticism. Parades of civilians, men or women, are another matter. A few months ago we needed them all to bring the war home to every last American. There was inspiration and great benefit from these daily marches.

That day is now passing. The Red Cross parade might well be the last of its kind. The huge success of the Red Cross campaign flowed not from its public proceedings, but from its magnificently organized house-to-house canvass. Such a canvass takes time and devotion. But it has been demonstrated to be far and away the cheapest and easiest and fairest method of raising large funds.

No waste time! The fewer holidays the better. The fewer parades of workers the better. Let every minute count. For it is minutes that will win the war.—New York Tribune.

## OAKLAND BOY COMMANDER IN AIR SERVICE

Kenneth Marr, Oakland lad, famous aviator and one of the stars of the Lafayette Escadrille before the United States entered the war, is now a squadron commander in the United States air service. Marr was transferred to the American forces with a captain's rank after the United States forces were placed in France. He is the son of Archie Marr, for many years master mechanic in the Southern Pacific yards in West Oakland.

Marr achieved fame with the French flyers more than a year ago. He was mentioned in French official despatches in June of 1917 for conspicuous bravery. He and several others, including Lieutenant William Thaw, were commissioned in the American army from the French forces.

Marr has figured in many sensational exploits of the air. In October, 1917, he flew behind the German lines, and planted an American flag on German soil, making his escape to his own lines after a desperate fight against twelve German machines. On September 1, 1917, he downed a German plane, and on September 23 figured in a sensational fight with two planes, winning one. He brought down another plane August 18 of last year at Verdun, and shortly after routed two more. He downed another plane in the Toul sector.

Early in 1917, he capsized in mid-air, but escaped serious injury. He has had several hairbreadth escapes in fights when he was outnumbered by German planes, but always has succeeded in reaching his own lines.

His most spectacular exploit was the downing of a Hun two-seater plane. "In the eye of the sun," a trick of getting his machine directly between the sun and his enemy, thus rendering himself invisible, as the opposing aviators could not look direct at the sun, and then "peppering" them with incendiary bombs. This trick won him distinguished service honors.

Four women and four men are recovering today from injuries suffered in automobile accidents on the Peninsula side of the bay yesterday. Miss C. S. Sweeney, 3000 Broadway, was injured in a crash of having caused the accident in which the four women and two of the men were injured.

This accident happened at the Nineteenth avenue entrance to Golden Gate Park and Lincoln Way. Lawrence McBride, one of those injured, says that Stellan ran into the machine driven by McBride. Besides McBride, the injured are: Miss Halve Kester, 805 Bush street, cut and bruised; Miss Mary Martin, 704 Bush street, sprained right arm and bruised face; May Robins, 150 Ellis street, lacerations of the scalp and sprained right arm; Edna Thee, 2637 Fifteenth avenue, bruised of the face and body; Charles Taylor, 440 Mason street, cut and bruised.

All returned to their homes after treatment at the Park Emergency Hospital. In Redwood City Louis Le Guere, 22 years old, and his brother, Blas Le Guere, were injured slightly when the motorcycle on which they were riding collided with an automobile on Main street. They were taken to the Redwood City Hospital, where Louis was found to have a broken nose and severe lacerations of the scalp, and his brother lacerations of the scalp.

## 14 Wrest Lives From Ocean Woman's Story Is Harrowing

Exhausted and Starving Survivors of Burned Vessel Reach Port in Small Boat

Survivors of the schooner Crescent, burned at sea when seventy days out of Sydney, one lone woman and thirteen men, are recovering today from the effects of a harrowing trip of 1400 miles in an open boat, in which they were stranded by fire from the unappropriated bosom of the mid-Pacific with provisions gone and only a quart of water between them and death by thirst.

The woman, to whose heroism the men pay undivided tribute, is Mrs. Theodore Olsen, wife of Captain Olsen, commander of the craft, who was also among the survivors. The men, in addition to the captain, included: J. G. Williams, Seattle, first mate; Charles Thompson, San Diego, second mate; Yoshitake Mano, cabin boy; and Seamen Henry Nantup, John Kalleman, Paul Strandin, Hugo Johnson, Nels Torp, Vic Alakas, Carl Strom, Robert Wollun and Erling Halvorsen.

**UNDER A JURY SAIL.**  
With a stained and wrinkled sail, much the worse for wear, bellying with the wind, a few cans of tomatoes left for food, and the water nearly gone, the tiny ship's boat swung up Meigs wharf last night, shortly after 8 o'clock, with the party aboard, worn, weary and exhausted by long vigils on the sea, but thankful to be alive. They were so stiff they could not rise from the seats, and willing hands helped them ashore at the end of one of the most sensational trips ever made by a 25-foot boat over strange waters.

The Crescent caught fire on the night of June 1. The blaze was discovered by Second Mate Charles Thompson, and the captain notified. All night the crew battled with the flames, but despite hard steam, and force pumps, the flames gathered headway. Finally, on the following day, it was seen the fight was useless, and all hands, with Mrs. Olsen, the only woman on board, set sail in the lifeboat for the Pacific Coast.

**LOSE COURSE IN RAIN.**  
The second day in the lifeboat a heavy rain shut down and they lost their way. Hour after hour they fought the waves, but the rain, falling feverishly to keep their light craft from being swamped.

When the storm subsided a new course was laid, and with a fair wind astern, the craft plunged across the trackless sea for fourteen long days. Not a vessel did they sight in all that time, save the steamer President just off the heads, near the Farallones, when rescue was useless, and a home port was a stone's throw distant.

The last of the sea-biscuits was consumed day before yesterday, and there remained of the ample provision store only three cans of tomatoes and two cans of peas. The water had been reduced to less than a quart. During the trip Captain Olsen put the party on rations—one eighth of a pound of canned roast beef and six biscuits per person per day. Six pounds of tomatoes and peas were divided between the party as an extra ration for the voyage.

**MRS. OLSEN'S STORY.**  
Weak, fearful from the reaction of being saved, and more than thankful to be alive, Mrs. Olsen told of her harrowing trip across the Pacific. "We were out of Sydney, seventy days when the Crescent was discovered to be on fire. The lifeboat was lowered and all hands turned to putting out the fire.

"Seeing that it was impossible to save the ship were ordered to sea. As we cleared the sides the sails caught fire. "Once in the lifeboat, Captain Olsen headed for San Francisco. A sail was heaved up for the small boat and fourteen of us were huddled together day and night, rain and shine, for two weeks. During that time we made more than 1400 miles.

"We left the burning ship so hurriedly we had no time to get clothing. I took all the old skins I could find in the smoke-filled cabin. But these were not enough to go around and the men were wet most of the trip. The waves were rolling high most of the time, and we were in it for three days.

**HAD TO KEEP BALING.**  
"Water continually poured into the small boat, which was loaded to its capacity, and some one was kept bailing out the water all the time, night and day for three days.

"It was awful in that small boat. We

were so cramped and crowded. Look at my hair, it hasn't been combed for two weeks. I am heart-sick at the loss of the Crescent. It was my home. I have been on it for fourteen years, ever since it was built.

"It was a trying ordeal, but I don't feel any worse for it, and I am glad to see the ship. I was the experience of a lifetime and one that I shall never forget. I fared better than some of the men and I am truly glad to be on land once more.

**FIRE ACCIDENTAL.**  
Captain Olsen disclaims any knowledge of an attempt to set his steamer on fire. He holds to the theory that the fire was accidental. He said: "I had no I. W. W. men among my crew, nor any pro-Germans, so far as I know. I think it was an accident, but I am unable to account for it. This was my second trip to this port with a cargo of copra.

"When I realized that the fight was hopeless I ordered all hands to quit the lifeboat, and rigged up a sail, and after setting aboard what supplies we could get together we left the ship in flames. We could still see it at midnight following.

"Not a vessel of any kind did we sight until we were outside the heads here, when a steamer passed us coming into port. "We made good time in the small boat and when we set sail from the burning vessel I estimated that we would reach San Francisco in two weeks. Had we not had two or three days when the wind was not blowing we would have arrived ahead of schedule.

"The sea was rough most of the time and we could not keep the water out of the boat, but some one worked a bail during the entire trip. Fourteen days and nights with little sleep, always watching for passing vessels, is a terrible experience, but we went through the hardships like spirits." **BLAZED BY SMOKE**

All of the members of the crew complained of being blinded for hours afterward by the smoke from the burning copra. Seaman Johnson tells of this: "When I went on deck everything was in a haze. The fire gained on us all the time. Most of us were blind from the copra fumes. In the small boat my face became so swollen I could hardly stand the pain. The rest of the crew were in the same fix, but they would not give an inch. It certainly cheered things up when we saw land."

First Mate Williams told of the fight to keep the boat afloat when the fire was so intense that the crew was in danger of being cooked. "When we retired to the boats we put in stores that required no cooking—canned goods and the like. The boats were made all ready for launching and then we went after the fire. The crew then went to the hand pump. Thirty notes were cut in the deck to allow the smoke to clear from the hold, but they had little effect. The deck got very hot and when flames broke out fore and aft, orders were given to clear the ship."

Nels Torp, the ship carpenter, discovered the fire. "I smelled smoke," he said. "When I pulled out the drawer I found a burning candle and a can of kerosene. I thought I had to go on deck. We fought the fire until noon the next day. When we were miles away from the steamer we could see the glare. The crew was on the deck and worked like Trojans all the way into the Golden Gate."

Second Mate Thompson was a seaman on the Manila when the latter was captured and sunk by the German raider Seeadler. He was held a prisoner until the German prison ship was wrecked on the Society island, and when he escaped and joined the Crescent.

## IRON WORKS FIRE LAID TO ARSON PLOT

A fire which originated in the rear of the Phoenix Iron Works at First and Castro and other property in an entire block causing a loss of approximately \$100,000, was the result of a deliberate arson plot, is the belief of the police and Federal authorities who today are bending every effort to trace the culprits. The fact that the iron works was engaged on government contracts for fitting out ships makes the situation a serious one in view of the fact that only three weeks ago a disastrous fire wrecked the plant of the United Iron Works, which was also turning out machinery for vessels built in the estuary.

Besides the iron works the warehouse of the Oakland Waste Paper Company at 731 First street, was burned and the Independent Paper Box Company at 731 First street is a total loss, together with a large warehouse belonging to the Daisie estate at the corner of First and Bush streets.

The fire originated in the rear of the waste paper company's plant and it quickly spread to the adjoining structures, all of which were of heavy construction. The heroic efforts of the firemen, aided by the high pressure salt water system prevented a more serious disaster. The pattern shop of the iron works was the property being more fortunate than the Union company which lost its pattern shop in the recent fire.

The activities of the police and Federal agents are centered in a search for a man whom Louis Gualinga, special watchman for the Phoenix plant, saw running away from the vicinity of the waste paper company's building about ten minutes before he discovered the blaze. It is believed that this man set a fire nest calculated to spread into the adjoining buildings which would have greater difficulty in reaching owing to the frequent rounds made by the watchman.

During the progress of the blaze, a corporal's guard of artillerymen from the Presidio had been directed to the vicinity of the Phoenix office building and risked disaster to themselves to rescue an American flag which hung at the top of the flagpole. They returned safely with the emblem amid the cheers of the crowd. The soldiers refused to make their identity known, declaring "it was nothing."

Patrolman Stephen Connolly received burns on his face and arm when he tried to enter the Daisie estate house stable to save three horses which he led to safety.

When the shout went up to "save the flag," the soldiers took prompt action. One of them ran from one of the trucks they placed it upright near the top of the flagpole.

First Sergeant Albro A. Adams of Eighth Ammunition Train, Camp Fremont, saved the ladder and reached the base of the flagpole. The emblem was entangled with the halyard and it was necessary for Sergeant Adams to "shimmy" up the pole.

Assisting in the rescue were Privates B. J. Burnham of Company D, ammunition train, and H. E. Johnson of Company G, who held the ladder, with the aid of citizens, among them County Auditor E. F. Garrison who was one of the first to observe the peril of the flag in the flames.

## C. C. MOORE IS MADE HEAD OF DEFENSE BODY

As predicted in The TRIBUNE Friday, Charles C. Moore of San Francisco has been appointed by Governor Stephens directing head of the State Council of Defense, succeeding A. H. Nafziger, who resigned some weeks ago as the result of censure of the manner in which he conducted the affairs of the council. The appointment of Moore was made public today by Governor Stephens, who is in Los Angeles.

To The TRIBUNE Friday Moore said he would accept the place if it were deemed by the governor that he could be of service to the state. At that time the governor had not made public his choice of a successor to Nafziger, but it was understood he had obtained Moore's promise to accept.

**BECAME WIDELY KNOWN.**  
While Moore has been recognized for years as a construction engineer of ability, it was not until the Panama-Pacific Exposition that he became widely known as a man of exceptional qualifications as an organizer and executive. He is head of Charles C. Moore & Co., engineers.

The rapidly-growing belief that the affairs of the State Council of Defense were being directed in a manner that left much to be desired culminated in a direct attack against Nafziger by John H. Neylan, former head of the State Board of Control. Neylan, in a series of public statements, made charges against various phases of work undertaken by the council and asserted that the organization was accomplishing nothing of a constructive nature. Further, he took exception to the fact that Nafziger, reputed wealthy, was accepting a salary of \$500 a month.

Shortly after Neylan's criticism of Nafziger, L. C. Owen, who had been directing the publicity of the council, resigned and issued statements amplifying the charges made by Neylan. A few days later Nafziger resigned, saying that he believed his value to the council had been destroyed by the criticism, and that he was troubled particularly by the criticism of the fact that he accepted pay for his services. He said he could not afford to serve for nothing.

**STEPHENS' STATEMENT.**  
In announcing the appointment, Governor Stephens said: "I am glad to announce that Mr. Moore, who as president of the Panama-Pacific International Exposition, rendered such distinguished service for California, has responded to the call of patriotic duty and accepted the post of directing head of the State Council of Defense.

"After much deliberation and considerable readjustment of his affairs, both in connection with many public movements in which he has been active and in the care of large private interests, Mr. Moore has consented to undertake direction of the State Council of Defense at a time when we realize more than ever that a supreme effort must be put forth to sustain our national government in the prosecution of the great conflict.

"In experience and qualifications Mr. Moore is singularly fitted for the task. He will be the executive head of the State Council of Defense and upon him particularly will devolve the responsibility of securing through the agency the maximum of results for our state and nation."

## OBIT "SMIRKENS"; HE WAS A GOOD BIRD ONE TIME

"Smirkens," the sunshine bird, is all "wore" out! Do you know "Smirkens"? He is "Ket's" little weather bird in the corner of The TRIBUNE's front page. He has several brothers—"Nimby," the rain bird; "Toots," the fog bird, and "Fudge," the utility bird, who pops up in cartoons and expresses the artist's morning hate. They are all hard-working birds. But "Smirkens" has been overdone. The way of it is this:

"Ket" has gone to Yosemite. He calls it a vacation. Well, if climbing up and down the side of a cliff, sleeping with a pine cone in the ear, and eating a half a dozen of the best of the mountain fruit, it is a vacation—then he is having one. When he left he looked at his little weather birds up—all but "Smirkens."

For three days the city editor had to use "Smirkens" for everything—hot weather, sunny weather, warm weather—humus, nimbus, summer, and the rest. The new press masher "Smirkens" into thousands of sheets of paper—city edition, home edition, sporting edition—until his ribs got thin, his eye gave out, and his only tail feather wasn't fit to flock under at all. He was a sorry-looking object.

And then today somebody found "Ket's" key and we gave "Smirkens" a rest. Tenderly we laid him away behind an ink bottle, with a lump of lead on his chest. In his place we fished out his cousin "Smiley," another sunny prospect. And tomorrow "Smiley" works in "Smirkens'" place. "Smirkens" will never be the same bird again. Lest there be those who cannot understand why a weather bird should wear out, we will quote the old maxim of Hafiz, the Raimaker: "You can drive a cloud to water, but a weather-bird is always lead!" (And lead wears out.)

## ALL-DAY SESSION TO DISCUSS WAR

An all-day war service program, the fourth in a series, will be given Wednesday in the Centennial Methodist church, Ninth and Center streets, with the members of the Union Street Presbyterian church co-operating. Mrs. Lucy McClinic will be the leader, representing the Oakland Central W. C. T. U., of which Miss J. L. Redfield is president. "What Next? Why?" is the topic under which the present temperance situation will be discussed at 11 a. m. with Mrs. Alma Green presiding. Mrs. E. Musselman, assisted by Dr. Susan Fenton, Mrs. A. J. Kennedy and Mrs. Green, will lead the Mothers' Conference at the afternoon session.

**War Problems.** His address will be followed by a round table on war problems, led by Mrs. Annie M. Deyo, state secretary of the W. C. T. U. The following subjects will be taken up: "Americanization," Mrs. P. T. Lyon; "Soldiers and Sailors," Mrs. Sarah C. Borland; "Relief," Mrs. J. L. Slater; "Moral Education," Miss J. L. Redfield; "Women in Industry," Mrs. Dorcas Spenser; "Evangelism," Mrs. Emma Sherzer; "Organization," Mrs. Rosa Barker.

Captain F. L. Goord of the British army will deliver the address of the evening. "The Ode to the Flag" will be read by Mrs. Anna Partridge. A basket luncheon with tea and coffee served by the women of the church is arranged for the noon hour.

## CHANGES PENDING ON DAYLIGHT SAVING RULES

WASHINGTON, June 17.—Present application of the Daylight Saving Law, as amended in 1916, will probably be changed in detail by the interstate commerce commission before the 1919 spring advance touches American clocks, though in main, investigations now proceeding find the hour advance working satisfactorily.

Examiners for the commission have completed the taking of evidence on the subject in eastern and mountain cities, but still have to conclude hearings in the Middle West.

At El Paso, Texas, June 17, the final hearings will be completed, and after that formal reports to the commission will be available.

While the duty of prescribing the limits of the lost spring time in the United States fell to the commission, as a temporary expedient it adopted the demarcations of eastern, central, mountain and Pacific time as made by railroads, and fixed a fifth belt to govern Alaska.

**POINTS EXAMINED.**  
The examiners were sent out to see whether changes in the railroad time limits would not convenience business and social life if adopted. They have found to date a number of points, generally on the eastern edges of time belts, which already had systems of daylight saving by running on the hours of the belt adjacent to them.

A dual system of time has been found in several places in the United States, where "railroad time" and "town time" have both been customarily recognized, the latter being one hour faster than the former. Some points have continued the system, even under the general time advance. Others have changed to daylight saving adopted a single standard. Rulings will perhaps affect these.

**ADOPT RAILROAD ZONES.**  
The law is not compulsory, except for persons doing business with the government and railroads, but the examiners are finding that compliance with it is almost universal. Specifically, the law defines the hour zones across the United States as centering respectively upon the 75th, 90th, 105th and 120th Meridians west of Greenwich, with borders equidistant between the Meridians.

The commission exercised its power to set aside these standards, and adopted the existing railroad zones, which are only roughly similar to the legal ones, in order not to confuse and disturb the course of life.

In the main, it is expected that the examiners will report the railroad zones suitable, though changes in them will be made where compliance of the law and ease of application can be secured.

**Hayward-McDonald  
Letters Read in Court**  
CHICAGO, June 17.—Correspondence between W. D. Hayward and J. A. McDonald of Seattle, was read at the I. W. W. trial today.

Writing in January, 1917, MacDonald expressed the opinion that money spent on "parades" could to some extent have been better spent on publicity and sabotage.

In February of the same year Hayward wrote MacDonald calling attention to a report of the superintendent of motive power of the Chesapeake and Ohio showing the number of defects found in locomotives during the year. Hayward thought this might be of interest to local 600, composed of railroad workers.

## "The Hastings" REMOVAL SALE

We move on July 1st to our new store at Post and Kearny. In order to open the new store with new merchandise, we have made

**Decided Price Reductions**

in practically all departments. Considering that everything we offer is of dependable "Hastings Quality," considering that prices this Fall will be twenty to thirty per cent higher than regular (not sale) prices today; that some of these qualities will not be on the market again at any price till long after the war is over, it will, therefore, be true economy to buy a two years' supply at the sale prices. The sale embraces

**Men's and Young Men's  
Suits and Overcoats  
Shirts, Underwear, Neckwear  
Hosiery, Hats, Shoes  
Boys' and Children's  
Suits, Shoes, Hats, Furnishings**

This Sale will continue for **Two Weeks Only**—it closes positively Saturday, June 29th—we open Monday, July 1st, in our new store.

**HASTINGS CLOTHING CO.**

Post and Grant Ave., San Francisco

July First—  
Post at Kearny

Mae Marsh in "All Woman" and Virginia Pearson in "The Road to Rome" are the features of the double bill now playing at the American. Commencing Wednesday, Theda Bara will be presented in a 1918 version of "A Fool There Was," by Porter Emerson Browne, the production which made her famous as a film star.—Advertisement.

## SOCIETY

A Red Cross knitting tea for more than a score of her intimate friends Saturday afternoon at the home of Dr. Benjamin Truex Mouser and Mrs. Mouser in Piedmont was the occasion upon which Miss Madeline Adele Mouser announced her betrothal to Lieutenant Francis Stittwell Pratt, U. S. A.

The bride-elect is the eldest daughter of Dr. and Mrs. Mouser and a granddaughter of the late Dr. S. M. Mouser, pioneer physician of San Francisco. During the past few months Miss Mouser has given her time almost exclusively to war work. Lieutenant Francis Stittwell Pratt is the eldest son of Mr. and Mrs. Thomas Pratt of Ontario, Cal. He is a graduate of Stanford University and before enlisting was engaged in business in the East. He is now stationed in Washington, D. C. It is quite apropos the young officer should be in the service as his family or generation have been army people. His grandfather, the late Colonel Pratt of the Royal Engineers, saw service in the Crimean war. An uncle, Colonel Pratt, is serving in the Indian army, also three cousins, officers in the British army. His brother, Lieutenant Eric T. Pratt, recently received his commission in the United States aviation service.

Mr. and Mrs. Glenn C. Barnhart of Oakland are to take a motor trip this year, though toward the close of the season—in August. Mrs. Barnhart and her son are to go to the Feather River Inn for a time, when they will be joined by Mr. Barnhart for a fortnight. The motor trip through the north coast will be taken. Last year a similar trip extended over several weeks through the Bret Harne country.

Dr. J. F. McMath and Mrs. McMath are on a joint business and pleasure trip east, dividing their time between New York and Washington, D. C. Dr. McMath has visited many of the larger hospitals there.

Major Bruce Cornwall and Mrs. Cornwall, whose home is in Berkeley, are now in Washington, D. C., where the former has an important government position to fulfill. Their stay in the East is for an indefinite period.

Accompanied by Mr. and Mrs. Silas Palmer of San Francisco, Mr. and Mrs. Frederic Magee of Vernon Heights will leave next month on a motor trip to Portland. Mrs. Magee will visit in Vancouver, B. C., at the home of Mrs. Norman Lang.

Mr. and Mrs. William Clark Crittenden and their infant are to motor north this summer, not having decided as yet upon the exact itinerary of their tour. Mrs. Crittenden was Miss Margaret Clark.

Mr. and Mrs. E. J. Saake left yesterday morning for a motor trip to the Yosemite valley and will be away for about ten days. During their leisure they will stop a day or two at Miami lodge.

Mr. and Mrs. J. E. McCreary of Berkeley have motored to the southern section of the state and taken an apartment in Los Angeles to be near their son, Howard McCreary, who has enlisted in the naval reserve.

While Major James Archer Dorst, U. S. A., and his bride were in Chicago on their wedding luncheon orders came for the officer to go direct to West Point.

While Miss Dorst is at that army post, his bride is the guest of relatives in Philadelphia. Mrs. Dorst was Miss Catherine Woolsey before her wedding in May.

A pretty compliment paid the officer and his bride before their departure from Camp Fremont, was the presentation on the part of the fellow officers of the Major, of a silver vase. His company was the 31st engineers.

Lieutenant Philip Cushing Stetson of Chenuite Flying Field and his bride are en route to Dallas, Texas, where the former is to be stationed. Their wedding was solemnized yesterday afternoon at 1 o'clock at the home of Captain A. P. Pillsbury and Mrs. Pillsbury, the bride's parents. Rev. H. E. B. Speight officiated. Edwin Sprague Stetson attended his brother as best man while Mrs. Vernice Brand was matron of honor and Miss Sally Jenkins of Mills Valley flower girl.

The wedding was one of exceptional interest in fraternal circles, where both bride and bridegroom were prominent at the University of California as both were graduates of the class of 1915.

A wedding to be solemnized tonight is that of Miss Helen Scott, daughter of Mr. and Mrs. William H. Scott of Greenwood, Ind., and Kenyon T. Gregg of Yuba City. Rev. Charles C. Kloss will read the ceremony. At the home of the future bridegroom, Mrs. James A. Robinson of Adams street. The couple will be unmarried. Mrs. E. H. Reed of Grand Rapids, Michigan, came west to attend the marriage.

**DANDELION PARTY.**  
DENVER, Colo., June 15.—Every member of City Park Baptist Church was recently requested to attend a special mid-week prayer meeting and to be on hand an hour earlier than usual. When the "worshippers" arrived the pastor produced an old case knife for each member, pointed to a church member badly cluttered by dandelions and told men and women alike to get busy. At the end of an hour of digging the lawn was clear of weeds. The preacher dismissed the diggers with a short prayer.

**WEAK, RUN DOWN WOMAN**  
Tells How Vinol Made Her Strong.  
So, Kaukauna, Wis.—"I was weak, all run down, tired all the time, and had asthma so I could hardly keep around and do my housework. After everything else had failed to help me, Vinol built me up and made me well and strong."—Mrs. Jay Parker.

The reason Vinol was so successful in Mrs. Parker's case, is because it contains the necessary elements to create a healthy blood circulation, make pure blood and create strength. It is the best and cod liver peptone—iron and glycerophosphates in Vinol—that does it, you will not be disappointed if you try it.

The Owl Drug Co. and druggists everywhere.—Advertisement.

## Revelations of a Wife

by Adele Garrison

(Continued From Yesterday.)

Of course I knew better than to believe the statement of the elopement. I had seen and heard enough of village life to know that the elopement was a farce. That Dicky and the girl took the same train, going and coming from the city, was a fact borne out by my own observations. I had remarked Dicky's regularity in catching the 8:21 in the mornings, something so exact to the usual unpunctual habits, and wondered why. Now I had the solution.

I told myself, dully, that I was not surprised that I had really known all along something like this was coming. My thoughts went back to the night, a few weeks before, when I had suffered a similar paroxysm of grief over Dicky's evident interest in the girl. Then at my doubts and fears had been swept away in Dicky's arms, and the moonlight, I caught my breath as I realized in all its miserable certainty the impossibility of any such tender scene now. Dicky and I seemed as far apart emotionally as the poles.

But the determination I had reached that other night, before Dicky's voice and caresses dispelling my doubts, I made my own again. There was nothing for me to do but to wait quietly, with dignity, until I was absolutely certain that Dicky no longer loved me. Then I would go out of his life without scenes or recriminations. I would not lift a finger to hold him.

By the time I had gained control of myself once more, Dicky came home. "Letter for you," he said, "from the office of your old principal."

He tossed it into my lap, eyeing it and me curiously. I knew that his desire to know what was in it had made him remember to give it to me. His mother, who had opened her door at his step, came forward eagerly. I opened the letter, to find an offer of my old school position. My principal wrote that the town was suddenly taken ill and could not possibly fill it. He asked me to write him my decision at once, as it was within a few days of the opening of the school.

Mechanically, I read it aloud. My brain was whirling. I wondered if, perhaps, this was the way out for me. Dicky really did not love me any longer. I ought to accept this position, even if taking it I broke my agreement with the Lotus Study Club.

I did not like the thought of leaving the women who had thus honored me, but, on the other hand, if Dicky and I were to part, the ending of the ways I could not raise this rare chance to get back into the work I had left for his sake.

I decided to be guided by his attitude. If he were opposed to my course, I would refuse to him, and I would accept the position. But if he showed unwillingness, at the proposition—

I did not have long to wait. As I lifted my eyes to his face when I had finished reading the letter I saw the old familiar black frown on his face. I never had thought that my heart would leap with joy at the sight of Dicky's frown, but it did. Before either of us could say anything, his mother spoke.

"Isn't it splendid? You are a most fortunate woman Margaret, to be able to step back into a position like that. If it had come earlier, when my health was so poor, you could not have done it. Now you can accept it, for I am perfectly able to run the house. You, of course, will write your acceptance at once."

She paused. I knew she expected me to reply. But I closed my lips. Dicky should be the one to decide this. He did with thoroughness.

"I thought we settled all this rot last spring," he said. "Mother, I don't want to be disrespectful, but this is my business. You could not have it. You will refuse, of course, Marge."

He turned to me in the old imperious manner. Months before I should have resented it. Now I revelled in it. Dicky said enough about my mother. A few days before, to resent my going back to my work.

"If you wish it, Dicky," I said quietly. He turned a grateful look at me. Then his mother's voice sounded imperiously in our ears.

"I think you have said quite enough, Richard," she said, with icy dignity. "Will you kindly telegraph Elizabeth that I shall start for home tomorrow? I certainly shall not stay in a hotel. As I am flustered as I have been this morning."

(Continued Tomorrow.)

## Cattle Will Be Fed in Yosemite Valley

MERCED, June 17.—Following a conference at Wawona, at which final details were settled regarding live stock grazing rights in Yosemite national park, granted as a war necessity, cattlemen of Mariposa and Madera counties have started moving their herds from their feed-stripped home ranges to the virgin reserves between Wawona and Yosemite valley and in the area east of Wawona. It is expected that 4000 head from the park hunters will be fattened on the park reserve. Merced cattlemen, although allotted sufficient acreage for 7000 head in the park pastures, have plenty of feed on their own ranges and will not move their herds. The grazing fee in Yosemite park is fixed at \$1.00 a head for the four-month period. Conditions are that the cattle must vacate the park meadows when war necessity ends, and that the permanent beauty of the resort must not be marred. Certain parts are closed to live stock altogether. Present at the conference were Park Supervisor M. B. Lewis, Food Administrator Ralph Merrill, Live Stock Commissioner L. A. Nares and cattlemen of Merced, Madera and Mariposa counties.

## "Gas Masks" Planned for Food Supply

WASHINGTON, June 17.—Even the food containers of the American army in France will wear gas masks now, the men, horses, mules and even carrier pigeons already having been equipped. The quartermaster department announced today that as food containers are filled they are put through a paraffine bath and hermetically sealed, so that they can be carried through a gas zone without fear that soldiers' food will suffer harm. As a measure of conservation which may become necessary because of the limited supply of tin experiments with waxed paper ration boxes are being made with good results. Tests show that they meet all conditions.

## Chic French Girls Attend Afternoon Army Dansant

Loaded from cover to cover with the shrapnel of wit and humor, the twenty issue of *The Spiker*, the publication of the men of the Eighteenth Engineers, issued "Somewhere in France" for the month of May, has just arrived. With the Eighteenth just now in the thick of events, the publication is of intense interest, showing as it does the spirit of the men under strain. The publication is illustrated with numerous sketches by Louis Breton, former TRIBUNE cartoonist and baseball caricaturist, and Patsy Carroll, with special articles by John W. Hunt, San Francisco engineer; Machfeld Van der Hoop, Belgian authoress, who escaped from German clutches, and the paper's editorial staff.

"The Spiker" opens with a tribute to France herself under the title of "Gee-doo" (the golden rooster), the little gilt emblem "perched on monuments, in front of restaurants and other conspicuous places," which it declares was the first chicken to cross the Roman road of conquest.

"All the steel moulded in Essen in the last forty years has failed to curb his spirit," says "The Spiker." "German gas may make him sneeze and German shrapnel carry away a few pin feathers. But today he sounds the reveille of an awakening civilization in a world where vultures and other birds of prey will soon have to roost high or keep their claws in their pockets."

The social side of army life is given attention in "The Frenchman," an afternoon dansant, with a headquarters' jazz band to furnish the music is not overlooked for the folks back home. "The Spiker" says that the French girls like the overseas dances with "Bunny Blues" and "Dip" and the rest—in preference to their own variety, while "the whole village turned out and sandwiches were served in an arbor." Not bad—that side of war.

"Eggs and" is branded a "faux pas" of the French for good old American "ham and." The French waiters insist on reversing it, so one correspondent writes, and putting the eggs first, a proceeding which annoys all real Americans. One "ham and egg ally," "The Frenchman," has given in, and the sign over his door now reads: "Ham and Eggs." "What more strategic move could Louis the Eleventh or Ping Bodie have made?" queries "The Spiker."

**HEAVY ON POETRY.**  
Poetry runs heavy in "The Spiker." That of Delia Pratt, U. S. A., touches many responsive chords: "There's one, a maiden fair, In France somewhere. Her face is like a rose, Her lips—so rare, She raised her face to mine— I took a chance. There's garlic in the air— 'Somewhere in France.' And this, au lieu d'amour: 'A book of franc notes—just enough for two; A jug of wine or cognac and a stew; Somewhere in France—a little French café— Oh, friend of mine, it's paradise for two."

The more intimate phases of pay-day are summed up in this little loose-jointed couplet: "Little 'Franc' and his sister 'Sou' Clapped their wings and away they flew."

And this, which makes us all ripple up and down the spine—the tribute of the American soldier to his friend, the French fighting man:

"If I could talk your lingo I could tell you how I feel. As regards this little mixup over here, I would say I'm at your service from my hatred to my heel. And I'll prove it ere the finish of the year."

If it's fighting or plain mucking I will do my level best. For I'm doing it for Texas, Maine and Cal. And France and Jersey City, San Francisco and the rest. So here's my hand, Kid Polu, you're a swell."

**SERIOUS PHASES.**  
The more serious phases of the war game are not overlooked: "Boy, we found one lone Yank dead in a shell hole with five dead 'Boches' written on his forehead by the trench line. He added: 'Can the Germans win out against such fighters as that?'"

There are some excruciating funny things in "The Spiker" this issue. For instance there is the private whom the French maiden described as "the Elfin' Tower in tight," a "colored seashell trooper who kicked because the government did not send the 'army overland by way of Cuba to Paris.' Instead of over a stormy sea, the corporal who wanted to know if "Bolo" Graham was a new health food," the steeplechase trying to win a commission, who thought a "volley" was a dead parrot, and the story of the corporal who fell in a consoled river and nearly froze to death while two privates argued as to who should wear the cross de merite, which they expected for saving him.

Sporting events between army and navy men, collations, receptions, theatrical entertainments with Elsie Jones looking the house with her personages, teaching the French "kids" to play old-fashioned American peewee in the streets between bombardments and air raids—these are some of the sidelights of America's remarkable body of fighting men in the war zone told in "The Spiker's" columns.

"We are making France open her eyes," says one enthusiastic lad, and this seems to be true even in "The Spiker," which is the most original thing of the kind ever issued from the fighting zone.

**STUDENTS "CUT" CANDY.**  
SPRINGFIELD, Ill., June 15.—Candy has been abolished in the high school cafeteria here. When the principal called the attention of the students to the fact that the candy was used unprofitably, the students voted unanimously to abstain from its use.

(Clip this out and save it.)  
Boil jars and tops for at least 15 minutes before filling them. A wash boiler or any other large vessel (with tight-fitting cover) fitted with false bottom of slate or wire mesh may be used for the processing vessel.

While jars are still hot pack with prepared product. Without delay place rings on jars and put on hot tops, but do not screw or clamp air-tight at this stage.

Place partially sealed jars while still hot into warm water up over the tops. Put cover on boiler.

Boil (process) the filled jars for the time or periods specified. Seal by clamping or screwing tops until the jar is absolutely air-tight. Cool the jars out of a draft and when cold test for leaks.

**U. C. Couple Wedded in Northern City**  
SANTA ROSA, June 17.—Another romance of the University of California and the war has occurred in the marriage of Lieutenant Charles H. Thompson, son of the late Dr. Charles H. Thompson, and Miss Leila Lasley, formerly of San Francisco. Miss Lasley was formerly a teacher in the Portland high school.

Lieutenant Thompson, who first met his bride at the university, has been stationed at Camp Lewis for some time. The marriage took place in the Unitarian Church in Portland. Lieutenant Thompson is a nephew of Attorney and Mrs. D. R. Gale of this city.

**ODD CENTS TO RED CROSS.**  
DENVER, Colo., June 15.—Some 800 girls in the employ of the traffic department of a telegraph company in Denver twice a month are turning the odd pennies they receive in wages over to the Red Cross. Miss Alice Dilling was the originator of the plan by which, it is estimated, the Red Cross will profit \$700 a year.

**Endeavorers Meet at Rallies; Discuss Work**  
SANTA ROSA, June 17.—Yesterday was rally day with the Christian Endeavorers in Sonoma county. The first rally was held in Cotati. At 2:30 o'clock the county executive committee met in this city and at 3:30 there was a general rallying of the Endeavorers in a big meeting addressed by State officers of the order. At 7:30 there was a "State Convention at Sacramento Rally," and the finale was another rally last night in the Green Valley.

**Soldiers Take Part in Flag Day Rites**  
REDWOOD CITY, June 17.—Camp Fremont soldiers took part in a flag day celebration held here. The principal speakers of the day were District Attorney Arthur M. Free of Santa Clara county and Attorney John Willard of Redwood City.

A musical program was heard including selections by the Camp Fremont orchestra, selections by the quartet of the Thirteenth Infantry, a

## Garis' BEDTIME STORY

BY HOWARD B. GARIS

UNCLE WIGGLY AND THE CAKE BASKET.

"Uncle Wiggly, can you spare me a few minutes some time today?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper, of Mr. Longears, the rabbit gentleman, as he stepped on front porch of his hollow stump bungalow after breakfast.

"As many as you like," answered the bunny rabbit gentleman, sort of like a clock, and he didn't twinkle his pink nose a bit, because it was too warm. "What do you want me to do for you?" he asked.

"Oh, just take some molasses cake with raisins in over to your friend, Grandfather Goosey Gander," went on Miss Fuzzy Wuzzy. "I have just baked some, and I'll put it in the basket so you can carry it over without spilling it."

"That will be fine," cried Uncle Wiggly. "Bring out your cake basket, Jane!"

"Nurse Jane went in the hollow stump bungalow and out into the kitchen, and as she opened the door Uncle Wiggly certainly twinkled his pink nose then, set or no hot, for he smelled the most delicious and scrumptious smell! Oh, my!"

"Well, if that's molasses cake with raisins in it," he said, "Grandfather Goosey Gander can't have some any too soon, can he? I'll have a bite before I take the cake basket over to my friend."

Uncle Wiggly went out into the kitchen himself to see if it was really the molasses cake that smelled so good, and it was. Nurse Jane was cutting some up in the basket and she gave Uncle Wiggly a bit for himself.

Then the bunny uncle, with the cake basket on his paw, started to hop over the field and through the woods to the house of Grandfather Goosey Gander. The day was warm, Uncle Wiggly had eaten a good bit of the cake, and he felt sleepy when he got in the shady woods.

"I'll just lie down and take a nap," he said. "There is no hurry about the cake basket."

So, finding a nice, soft, green mossy log for a bed, Uncle Wiggly laid down beside it, stretched out, pulled some big mardock plant leaves over him for a quilt, and went fast—fast—to sleep.

And, as he slept, along through the woods came—no, now don't guess too soon, but it was a very scary-looking alligator not yet the fuzzy fox. It was Sammie and Susie Littlebell, the rabbit children.

"Look at Uncle Wiggly asleep!" said Sammie to Susie.

"Yes, and see the nice cake basket beside him," said Susie. "It's too bad to leave that there."

"Why, you wouldn't eat it, would you?" asked Sammie, born of superior taste. "It smells very good, and I'm hungry for molasses cake," said the rabbit boy.

"But still—of course, I wouldn't take it, Sammie," said Susie. "But if we leave it here, and Uncle Wiggly keeps on sleeping, some bad animal may come and take the cake."

"What had we better do?" asked Sammie.

"We'll take out the cake and hide it," spoke Susie. "In its place we'll put a sand cake, with stones for raisins. But when Uncle Wiggly wakes up we'll give him back his real cake."

So the rabbit children made a cake of brown sand, which looked like a molasses one, and they put it in the basket in place of the real molasses cake, which they took out. The real cake they hid in the bushes and then they waited for Uncle Wiggly to wake up.

And, all of a sudden—yes, this is the place for it—along came the bad old Nabby Pambly, who was very fond of cake. And he was fond of sauce, too, for he cried:

"Oh, ho! This time I have you, Uncle Wiggly! As soon as I eat this molasses cake I'll bite a lot of sauce out of your ears!"

"Oh, please don't!" begged the bunny. "Yes, I shall!" said the Nabby Pambly.

"But first I'll eat the molasses cake!" Then he took a big bite of what was in the cake basket, thinking it was molasses cake, but you know what it was—only sand, and stones for raisins. It was only a sand cake, and he looked like a cake.

"Oh, lollypop, mushrooms and court plaster!" cried the Nabby Pambly, as he felt his mouth full of sand. "I guess I made a mistake!" and away he ran, not bothering Uncle Wiggly at all. Then the rabbit children took the real cake out of the bushes and put it in the basket, and the bunny uncle was glad they had saved it for him, and they went to Grandpa Goosey Gander with the cake, and a nice piece of Nurse Jane's molasses cake from the basket.

And if the pencil doesn't forget to dust its feet on the penholder and track chalk marks all over the blackboard, I'll tell you next about Uncle Wiggly and the cake.

## RECRUITS FOR WOMEN'S LAND ARMY ON WAY

To train themselves to take the place of men on the farms who have gone to war, eight working girls, comprising the first unit of the Women's Land Army, recruited from the stores of San Francisco and Oakland, left Berkeley at 8 o'clock this morning for the University of California farm at Davis to undergo a course in intensive farm work.

Haymaking, dairying, hand and machine milking of cows, poultry raising and harvesting in the course mapped out for the attractive group of young farmettes. The girls will take a month's course, in which they must make good to the extent of earning their room and board. They will replace a group of nine college girls whose success in a similar course last month has led to further experiments in training women to meet the shortage in farm labor.

### MAKE TRIP BY AUTO.

The girls left here in charge and will be "chaperoned" on their month's sojourn at Davis by women instructors from the University of California. In order to minimize expenses for the members of today's party, all of whom are wage-earners, the advisory council of the Women's Land Army furnished transportation in the form of automobiles, which are being driven by Mrs. E. O. Lundborg, residing at the Hotel Claremont, and Mrs. Edward Andrews of Piedmont, well known in east bay social circles. Both of the matrons have furnished their own cars and acting as chauffeurs for the group of prospective farm maids. Mrs. Sidney Joseph, chairman of the management committee of the Women's Land Army, represented the organization in seeing the girls off, pointing out each girl the insignia of the body of women which they represent, a red ribbon arm band bearing the initials "W. L. A." Also accompanying the girls on their way to Davis were Miss Josephine Woodfin and Mrs. William James Munro, both well-known workers in the Women's Land Army.

Feminine attire will be discarded by the girls in their working hours on the farm and they will work in specially designed "trouserettes" made of blue and white striped denim, with a blue blouse of the same material. Each girl has been provided with a wide-brimmed hat in which to protect her hair from the sun.

All of the members of today's party are enthusiastic at their undertaking, and declared that they would be ready in a month's time to do their "bit."

**Kryptoks**  
give you both near and far vision in one lens doing away with two pairs of glasses or those old unsightly cement bifocals with lines.

## DANCE OF DRYADS OPENS LAKESHORE

To Lakeshore Highlands and spent yesterday afternoon watching sprites and dryads skim the greensward. They also listened to prophecies of the growth of Oakland and of the 212-acre residential park where the entertainment took place.

H. C. Capwell, president of the Oakland Chamber of Commerce, commended the developers of the property for the way in which Lakeshore Highlands is being laid out, and spoke of Oakland's tremendous future and the opportunities presented to those who invest in Oakland property now. He predicted a population of 350,000 for Oakland in 1920.

Robert Newton Lynch, secretary of the San Francisco Chamber of Commerce, spoke of the extraordinary growth of commerce in San Francisco. They also listened to the future of this point as the location of one of the great cities of the world is assured. Joseph E. Caine, secretary of the Oakland Chamber of Commerce, was chairman of the Midsummer Dance Festival, featuring seventy-five barefoot dancers under the direction of Anita Peters Wright was given in Lakeshore Highlands. Glen. Sixteen numbers were presented, suggesting the passage of the hours from dawn to dusk. The orchestra was under the direction of Dexter Wright.

Among the soloists were Dorothy Storey, Dorothy Scobell, Patrick Reynolds, Lenore Peters, Muriel Stryker and Erna Harbo.

Moving pictures of yesterday's ceremonies will be shown at the T. and D. Theater, Oakland, beginning Wednesday.

## Hibernians Plan for 1918 Reunion

The board of directors of the Ancient Order of Hibernians in America met at the Hibernian Hall yesterday to arrange the details of the 1918 reunion of all the bay district divisions of the big organization, to be held in Shellmound Park on Sunday, June 30.

County President John J. McConville presided and State President William Boyle made the principal speech, pointing with pride to the growth of the order and the hundreds of members that are enrolled in the fighting forces of Uncle Sam.

Committees were appointed to complete the program minutes of entertainment and sport features to be presented at the big "get together" Hibernian event on June 30 as follows:

**A WORD TO GRIP SUFFERERS.**  
The form of influenza commonly known as "the grip" is a disease of short duration, usually running its course in from two to ten days. Medical treatment does not help much.

During its short course the grip makes havoc in the system, thinning the blood, weakening the digestion and leaving the nerves unstrung and oversensitive. An attack of the grip is often the unsuspected cause of much suffering and chronic ill health later on.

After the grip there is always danger of pneumonia unless the strength of the patient is built up so that the body can defend itself. It is a condition that calls for a tonic.

The best way to correct this aftereffect of the grip is to build up the blood and there is no better blood builder than Dr. Williams' Pink Pills.

As soon as the revitalized blood courses through the system you are aware of its soothing influence. Gradually the color returns to the pale cheeks, appetite and digestion return and you are on the road to health.

Dr. Williams' Pink Pills are 50 cents per box; six boxes for \$2.50 at druggists or by mail from the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for the free booklet, "Building Up the Blood."

## BROOKS WILL RUN FOR ASSEMBLY

retary of the State Senate, has announced his intention of running for the Assembly from the Thirty-seventh district, the place now being filled by William T. Satterwhite, who has announced his intention of running for the district attorneyship. The district is in Alameda.

In announcing his intention Brooks makes the following statement:

"I am a candidate for election by the voters of the 37th Assembly district as their representative in the next session of the State Legislature.

"My eight years of service with the legislature have given me a training in legislative matters which will enable me to assume the same responsibilities as a veteran legislator. As secretary of the Senate, there are few matters connected with legislation which do not come under my personal observation and with which it is not necessary for me to have an intimate first hand knowledge. I am the author of the Legislative Manual and Form Book published by the state and used as a book of reference by the members of the Legislature.

"If elected, I pledge myself to vote and work for each of the following:

"1. All legislation that will assist in the successful prosecution of the war by the United States and her allies.

"2. Ratification of the amendment to the United States Constitution now submitted to the legislatures of the various states and providing for national prohibition.

"3. The enactment of legislation which will give further stimulus to the remarkable industrial growth of the state so that California will gain a permanent position among the foremost states of the union in industrial and commercial importance.

"4. The enactment of laws which will fairly and intelligently be designed to protect those of both sexes and all ages who toil with their hands.

"5. All further legislation that may be necessary to secure complete equality of women with men before the law.

"6. Any additional legislation that will ensure the sanitary and adequate housing and the supply of nationwide emergency of the food of the people of the state.

"7. Relief war time economy in the administration of the state and county governments.

chairman; P. J. Mahoney, James C. O'Brien, J. Malone, Matthew M. Twomey, Charles J. Colins, John Deveney, Thomas R. O'Day, James T. Kearns, John Donohoe, Bernard Naughten, Edward M. O'Reilly.

Special features—Joseph J. Deveney, chairman; M. J. Gies, Thomas Regan, Eneas Kane.

**Improvement Club to Form Militia Company**  
The Vernon-Rockridge Improvement Club at tonight's meeting will take the initial steps toward the formation of a militia company for the North Oakland district.

All men beyond the draft age and of physical ability will be eligible to membership. An effort will be made to secure a government drill master. The club will also take up the matter of securing a branch library. All those who are interested are invited to be present at College and Lawton at 8:15 o'clock.

**Score Hurt When Tornado Hits School**  
VIENNA, Ga., June 17.—One dead, one fatally injured and a score suffering of minor hurts is the toll today of the tornado which yesterday swept over Dooley county. The 3-year-old daughter of A. E. Wallace was killed, and a Miss Gammons mortally hurt when a school house in which a Sunday school meeting was being held was demolished.

## NEWLYWEDS IN CLASS 1, DRAFT RULE

SACRAMENTO, June 17.—Instructions to send 937 California draft registrants who have graduated from grammar schools to Los Angeles and Berkeley for mechanical and other training, were received today by Governor William D. Stephens from Provost Marshal-General E. H. Crowder.

Washington has at last answered the question of many young couples who have married since May 18, 1917, by announcing today that all such have not been able to evade the draft. The draft service call, operations of the draft since that time and that men married since that time are to be classified as other than Class I. The only exception allowed is in cases where there has been a baby born or one is expected, prior to June 9 of this year, in which case they will be allowed a lesser deferred classification of Class II.

**GOVERNMENT POSITION.**  
This decision on the part of the draft heads sets aside all hopes of young married men that they will not go to war. They will, in response to the present Federal law, probably be called immediately. The work of reclassifying them is to be done at once by the boards, and in many of the divisions where the quotas are low they may find themselves in an army camp within a comparatively short period of time. The government's attitude is based on the assumption that the men knew when they were married that they were subject to Federal call for military service and took their own chance of securing exemption.

The government has also a desire to induce into service men who were married for the express purpose of evading the selective service act. There were many thousands of these throughout the country who sought to cloak their lack of patriotism behind a woman's skirts. All such will now feel the heavy hand of Uncle Sam and will have to do their part along with the boys who have gone to Europe to do their part.

**MANY TO GO.**  
At the present time every available man is being rushed to the training camps and various government headquarters. Calls were received yesterday for twenty-five additional men from the 2nd, 3rd, 4th and 6th to go to the spruce fields of the northern territory and cut timber for airplane manufacture. The work is being rushed in the north and the men will be sent as quickly as they can be chosen. The proportion of the men

to the various districts will be as follows: No. 2, 3; No. 4, 5; No. 6, 12.

**WASHINGTON, June 17.**—Support for Provost Marshal General Crowder's proposal to extend the army draft to men between 18 and 45 years was given today by Senator Chamberlain of Oregon, chairman of the Senate military committee, at hearings on the \$12,000,000,000 army appropriation bill.

"I have always advocated limiting it to men of those ages," said Senator Chamberlain, "and I think we will yet come to it. There are lots of men over thirty who really are doing nothing and ought to be reached."

**KILLED BY STREET CAR.**  
SAN FRANCISCO, June 17.—Edward Churchill, a professional beggar, was struck by an inbound Third-street car at Sixteenth street this morning and taken to the Central Emergency hospital, where he died. The motorist, John Vitokovich, 2503 Third street, was arrested and booked on a charge of manslaughter.

**JEWEL ROBBERY MYSTERY CLEARED.**  
SAN FRANCISCO, June 17.—Jewelry valued at \$12,000, taken from the safe deposit vaults of the Hotel St. Francis, has been recovered and the man who took it is known. Whether he will be prosecuted depends on the decision of Mrs. Alice D. Darr, owner of the jewels.

The vault was opened by an employee of the hotel who obtained a duplicate set of keys. The confession clears up what appeared at first to be a mystery, as the hotel management was certain no one could have opened the vault without the owner and an employee being present.

The crime was committed by Joseph Fisher, for many years superintendent of service at the hotel. In his confession he said that he has lost considerable money gambling and that as he has been drafted he desired to pay the debts thus contracted, before going to war. He said he was in the vault and saw the drawer containing the valuables. While the vault attendant's back was turned Fisher stole the jewels and the box was returned to its place without being missed.

**POLICE THINK MYSTERY GUN MAN IS HELD.**  
James Bradley, declared by the police to be a former burglar, arrested in Alameda yesterday, following an alleged attempt to terrorize Miss Evelyn Williams, Alameda girl, at her home, 17-5 Faru street, may be the mysterious burglar who shot Miss Rose Bender, Oakland girl, on the eve of her wedding Friday night. Both Miss Williams and Miss Bender are employed at the California Packing Company's plant in Oakland.

Bradley's latest entrance into notoriety occurred yesterday morning, when in the role of a rejected suitor, he is alleged to have gone to the Williams' home with a 44-caliber revolver and demanded a watch he had given the girl, at a pistol point. Miss Williams telephoned the police after Bradley left, and he was caught getting on a car to Oakland. He had the revolver, twenty rounds of ammunition and the watch.

At the police station Bradley was identified by Detective William Walmuth of the identification bureau as a prisoner sent to Folsom from Los Angeles, and released last January. He is 22 years of age and a printer. Miss Williams and her mother figured in the police court some time ago, when Otto Kull, former postoffice janitor, who boarded at the Williams home, was arrested several times for disturbing the peace of the Williams family by trying to keep other men from calling on the girl.

Bradley declares he did not threaten Miss Williams, but admits he went after the watch. His explanation is as follows:

"She tried to play me for a sucker. I heard another fellow had given her a watch, so I went up after mine. I took the gun along, because I didn't want to be 'bugged' by other men boarding at her house, if she hollered for help and asked 'em to mix in. I didn't threaten her and I didn't intend to shoot her. I got the watch and went away. I have had the gun for years. Used it to shoot bears and deer in the woods around Port Bragg."

The authorities are investigating the possibility that Bradley may be the mysterious assailant of Miss Bender, who was shot in her home last Friday night. The fact that both Miss Williams and Miss Bender are employed at the same place, that Bradley was taking a car for Oakland when arrested, and other facts in the possession of the police, leads to this inference.

**Connecticut Has Triple Execution.**  
HARTFORD, Conn., June 17.—Carmine Lanzillo, Frank C. Dusso and Carmine Morris Goldstein, a New Haven tailor, on the night of November 28, 1915, were hanged in the state prison at Wethersfield early today for the crime. It was Connecticut's first triple hanging.

**Can You Loan Your Auto to Assist Blind?**  
"Can you loan us your automobile tonight?" This is the plea of the inmates of the State Industrial Home of the Adult Blind, on Telegraph avenue, who have been invited to attend the performance of "The Mikado" at the Bishop tonight. Through the Blue Bird Department of The TRIBUNE they have appealed for fifteen machines, to take the blind guests to the theater and back again after the show.

Any resident of Oakland who can spare his or her car tonight for a short time has been requested by the superintendent of the blind home to loan it for the occasion, and to other call or telephone to the home before tonight, that they may know how many machines to count on. The home is at 3601 Telegraph avenue; phone Piedmont 275.

**Jewel Robbery Mystery Cleared.**

## A Word of Precaution.

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

## Children Cry For Fletcher's CASTORIA

**Letters from Prominent Druggists addressed to Chas. H. Fletcher.**

S. J. Briggs & Co., of Providence, R. I., say: "We have sold Fletcher's Castoria in our three stores for the past twenty years and consider it one of the best preparations on the market."

Mansur Drug Co., of St. Paul, Minn., says: "We are not in the habit of recommending proprietary medicines, but we never hesitate to say good word for Castoria. It is a medical success."

Hegeman & Co., of New York City, N. Y., say: "We can say for you Castoria that it is one of the best selling preparations in our stores. That is conclusive evidence that it is satisfactory to the users."

W. H. Chapman, of Montreal, Que., says: "I have sold Fletcher's Castoria for many years and have yet to hear of one word other than praise of its virtues. I look upon your preparation as one of the few so called patent medicines having merit and unhesitatingly recommend it as a safe household remedy."

**GENUINE CASTORIA ALWAYS BEARS the Signature of Chas. H. Fletcher.**

THE CENTAUR COMPANY, NEW YORK CITY
